**Commission file number 1-4224**

**Avnet, Inc.**

*(Exact name of registrant as specified in its charter)*

**New York**  
*(State or other jurisdiction of incorporation or organization)*

**11-1890605**  
*(I.R.S. Employer Identification No.)*

**2211 South 47th Street,  
Phoenix, Arizona**  
*(Address of principal executive offices)*

**85034**  
*(Zip Code)*

**Registrant's telephone number, including area code (480) 643-2000**

**Securities registered pursuant to Section 12(b) of the Act:**

<b>Title of Each Class</b>	<b>Trading Symbol</b>	<b>Name of Each Exchange on Which registered:</b>
Common stock, par value \$1.00 per share	AVT	Nasdaq Global Select Market

**Securities registered pursuant to Section 12(g) of the Act:**

**None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer  Accelerated Filer  Non-accelerated Filer  Smaller Reporting Company  Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements

Indicate by check mark whether any of those error corrections are restatements that require a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to Section 240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value (approximate) of the registrant's common equity held by non-affiliates based on the closing price of a share of the registrant's common stock for Nasdaq Global Select Market composite transactions on December 27, 2024 (the last business day of the registrant's most recently completed second fiscal quarter) was \$4,521,795,970.

As of August 7, 2025, the total number of shares outstanding of the registrant's Common Stock was 83,462,743 shares, net of treasury shares.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of the registrant's definitive proxy statement (to be filed pursuant to Reg. 14A) relating to the Annual Meeting of Shareholders anticipated to be held on November 21, 2025, are incorporated herein by reference in Part III of this Report.

## PART I

### Item 1. Business

Avnet, Inc. and its consolidated subsidiaries (collectively, the “Company” or “Avnet”), is a leading global electronic component technology distributor and solutions provider that has served customers’ evolving needs for more than a century. Founded in 1921, the Company works with electronic component manufacturers (suppliers) in every major electronic component segment to serve customers in more than 140 countries.

Avnet serves a wide range of customers: from startups and mid-sized businesses to enterprise-level original equipment manufacturers (“OEMs”), electronic manufacturing services (“EMS”) providers, and original design manufacturers (“ODMs”).

#### Organizational Structure

Avnet has two primary operating groups — Electronic Components (“EC”) and Farnell (“Farnell”). Both operating groups have operations in each of the three major economic regions of the world: (i) the Americas, (ii) Europe, Middle East, and Africa (“EMEA”) and (iii) Asia/Pacific (“Asia”). Each operating group has its own management team, who manage various functions within each operating group. Each operating group also has distinct financial reporting to the executive level, which informs operating decisions, strategic planning, and resource allocation for the Company as a whole. Regional divisions (“business units”) within each operating group serve primarily as sales and marketing units to streamline sales efforts and enhance each operating group’s ability to work with its customers and suppliers, generally along more specific geographies or product lines. However, each business unit relies heavily on support services from the operating groups, as well as centralized support at the corporate level.

A description of each operating group is presented below. Further financial information by operating group is provided in Note 16 “Segment information” to the consolidated financial statements appearing in Item 8 of this Annual Report on Form 10-K.

#### Electronic Components

Avnet’s EC operating group primarily supports high and medium-volume customers. It markets, sells, and distributes electronic components from many of the world’s leading electronic component manufacturers, including semiconductors, IP&E components (interconnect, passive and electromechanical components), and other integrated and embedded components.

EC serves a variety of markets ranging from industrial to automotive to defense and aerospace. It offers an array of customer support options throughout the entire product lifecycle, including both turnkey and customized design, supply chain, programming, logistics, and post-sales services.

Within the EC operating group for 2025, net sales of approximately 82% consist of semiconductor products, approximately 16% consist of interconnect, passive, and electromechanical components, and approximately 2% consist of computers.

##### *Avnet Design Solutions*

EC offers design support that provides engineers with a host of technical design solutions, which helps EC support a broad range of customers seeking complex products and technologies. With access to a suite of design tools and engineering support, customers can get product specifications along with evaluation kits and reference designs that

enable a broad range of applications from any point in the design cycle. EC also offers engineering and technical resources deployed globally to support product design, bill of materials development, and technical education and training. By utilizing EC's design chain support, customers can optimize their component selection and accelerate their time to market. EC's extensive electronic component offerings provide customers access to a diverse range of products from a complete spectrum of suppliers.

#### *Avnet Supply Chain Solutions*

EC's supply chain solutions provide procurement support and warehousing and logistics services to OEMs, EMS providers, and electronic component manufacturers, enabling them to optimize supply chains on a local, regional, or global basis. EC's internal competencies in supply chain, global warehousing and logistics, information technology, and asset management, combined with its global footprint and extensive supplier relationships, allows EC to develop supply chain solutions that provide for a deeper level of engagement with its customers. These customers can manage their supply chains to meet the demands of a competitive global environment without a commensurate investment in physical assets, systems, and personnel. With supply chain planning tools and a variety of electronic component management solutions, EC provides various solutions that meet a customer's requirements and minimize supply chain risk in a variety of scenarios.

#### *Avnet Embedded and Avnet Integrated Solutions*

EC provides embedded solutions, including technical design and integration and assembly of embedded products, systems, and solutions for a variety of end markets, including industrial and healthcare. EC also provides embedded display solutions, including touch and passive displays. In addition, EC develops and produces standard board and industrial subsystems and application-specific devices that enable it to produce specialized systems tailored to specific customer requirements. EC serves OEMs that require embedded systems and solutions, including engineering, product prototyping, integration, and other value-added services in the medical, telecommunications, industrial, and digital editing markets.

EC also provides integrated solutions and services for software companies that bring their intellectual property to market via hardware solutions, including custom-built servers.

### **Farnell**

Avnet's Farnell operating group primarily supports lower-volume customers that need electronic components quickly to develop, prototype, and test their products. It distributes a comprehensive portfolio of kits, tools, electronic components, industrial automation components, and test and measurement products to both engineers and entrepreneurs, primarily through an e-commerce channel. Farnell also distributes new product introductions for its suppliers across their various product categories.

Within the Farnell operating group for 2025, net sales of approximately 14% consists of semiconductor products, approximately 47% consists of interconnect, passive, and electromechanical components, approximately 11% consists of single-board computers, and approximately 28% consists of other products and services, including test and measurement and maintenance, repair, and operations products.

### **Major Products**

One of Avnet's competitive strengths is the breadth and quality of the suppliers whose products it distributes. Products from one supplier were approximately 10% of consolidated sales during fiscal years 2025, 2024 and 2023.

Listed in the table below are the major product categories and the Company's approximate sales of each during the past three fiscal years. "Other" consists primarily of test and measurement and maintenance, repair, and operations (MRO) products.

	Years Ended		
	June 28, 2025	June 29, 2024	July 1, 2023
		(Millions)	
Semiconductors	\$ 17,207.9	\$ 19,030.3	\$ 21,366.5
Interconnect, passive & electromechanical (IP&E)	3,976.9	3,745.9	4,150.6
Computers	528.9	382.8	520.8
Other	487.1	598.1	499.0
Sales	<u>\$ 22,200.8</u>	<u>\$ 23,757.1</u>	<u>\$ 26,536.9</u>

### Competition & Markets

The electronic components industry is competitive. The Company's major competitors include: Arrow Electronics, Future Electronics, World Peace Group, and WT Microelectronics for EC; Mouser Electronics, Digi-Key Electronics, and RS Components for Farnell. There are also certain smaller, specialized competitors who generally focus on particular sectors or on narrower geographic locations, markets, or products. As a result of these factors, Avnet's pricing and product selection and availability must remain competitive.

A key competitive factor in the electronic component distribution industry is the need to carry a sufficient amount and selection of inventory to meet customers' demand and various delivery requirements. To minimize its exposure related to inventory on hand, the Company purchases most of its products pursuant to franchised distribution agreements, which typically provide certain protections for product obsolescence and price erosion. These agreements are generally cancelable upon 30 to 180 days' notice and, in most cases, provide for or require inventory return privileges upon cancellation. In addition, the Company enhances its competitive position by offering a variety of value-added services, which are tailored to individual customer specifications and business needs, such as design support, point of use replenishment, labelling, testing, assembly, programming, supply chain management, and materials management.

A competitive advantage is the breadth of the Company's supplier product line card. Because of the number of Avnet's suppliers, many customers can simplify their procurement process and can make all or substantially all of their required electronic component purchases from Avnet, rather than purchasing from several different parties.

### Seasonality

Historically, Avnet's business has not been materially impacted by seasonality, except for an impact on consolidated results from shifts in geographic sales trends from Asia in the first half of a fiscal year to the Americas and EMEA regions in the second half of a fiscal year, which impact gross profit and operating income margins as a result of such seasonal geographic sales mix changes.

### Human Capital

The Company values its employees and recognizes their significant contributions to the Company's success. Its core values of integrity, customer focus, ownership, teamwork, and inclusiveness provide a foundation for its culture and are key expectations of employees. The Company's culture and commitment to its employees are vital to attracting, motivating, and retaining exceptional talent. Consequently, the Company invests in its global workforce to drive

inclusiveness; provide fair and competitive pay and benefits; foster employee development; promote employees health and safety; and understand employees' experiences and identify opportunities to improve.

Additional information regarding the Company's Human Capital programs, initiatives, and metrics can be found on its website, including in its Sustainability Reports accessible on its website. The Sustainability Reports and other information contained on the Company's website are not incorporated by reference into this Annual Report.

#### *Number of Employees*

As of June 28, 2025, the Company had a global workforce of approximately 14,869 employees across 48 countries. This included approximately 4,052 employees in the Americas, 6,185 employees in EMEA, and 4,632 employees in Asia.

#### *Compensation, Benefits and Wellness*

The Company strives to pay all its employees competitively and fairly, without regard to gender, race, or other personal characteristics. The Company sets pay ranges based on market data and considers an employee's role, experience, tenure, job location, and job performance. The Company periodically reviews its compensation practices, both in terms of its overall workforce and individual employees, to help ensure that pay remains competitive and fair.

The Company offers an array of benefits that support employees' well-being. Through its THRIVE program, the Company offers resources covering (1) physical and mental health, fitness, and well-being; (2) professional growth, skills, and development; (3) total rewards, retirement planning and money management; and (4) community connections, networks, and social interests.

#### *Learning and Development*

The Company supports career growth and provides an array of resources and opportunities to help employees reach their potential. There is a structured learning framework as employees progress from individual contributor roles to senior management. Learning and development resources include self-paced courses, books, listen and learn events, mentoring programs and internal and external trainings, which cover a variety of technical, business, interpersonal, and leadership topics. The performance management process provides for goal-setting, ongoing conversations and check-ins between employees and their leaders, and includes coaching and training for people managers. Talent and succession planning activities are conducted for the Company's executive officers and senior leaders at least annually and periodically for other levels of management.

#### *Health and Safety*

The Company aims to create workspaces and practices that foster a safe and secure work environment. In fiscal 2025, continued progress was made with implementing a multi-year plan to improve alignment and consistency of management systems, policies, and procedures; provide comprehensive health and safety training to employees relevant to their specific work functions; drive continual improvement processes with a focus on identified risks; and increase ISO certifications at operational sites. As of June 28, 2025, the Company has 27 operational sites, of which nine are certified to ISO 45001 and 19 are certified to ISO 14001.

#### *Inclusion*

The Company strives for (i) an employee population that reflects the diverse communities in which they live, work, and do business, and (ii) a culture that seeks out varying perspectives, which allows the best ideas to come to light.

The Company is committed to making employment decisions based on merit and the needs of the Company's business, while ensuring equal employment opportunities for all applicants and employees regardless of race, gender, national origin, or other protected characteristic. The Company's Global Inclusion Council, a global cross-functional team of leaders, oversees inclusion efforts. The council meets regularly and engages with colleagues across the Company to connect inclusion-related initiatives to the Company's broader business strategy.

The Company's Equal Employment Opportunity Policy actively promotes inclusion in the Company's talent management practices. The Company's commitment to inclusion is evidenced by the makeup of its Board of Directors, which as of June 28, 2025, was 40% women and 50% racially and ethnically diverse (including Middle Eastern origin). In addition, for fiscal years 2021 through 2025, executive's annual incentive compensation included non-financial performance goals that consist in part on inclusion.

The Company's employee-led Employee Resource Groups (ERGs) provide a forum for employees to communicate and exchange ideas, build a network of relationships across the Company, and support each other in personal and career development. The Company's eight ERGs support the following communities: women, Asian and Pacific Islanders, Blacks, Hispanic and Latinos, U.S. veterans, LGBTQ+, later career employees; and environmental and sustainability causes.

#### *Employee Engagement*

The Company engages with its employees and encourages open and direct feedback through employee engagement surveys. Through such surveys, the Company regularly collects feedback to better understand its employees' experiences and identify opportunities to improve the work environment, increase employee satisfaction, and strengthen its culture. In fiscal 2025, the Company conducted its regular global employee engagement survey and achieved a participation rate of 76%, an increase over fiscal 2024.

#### **Available Information**

The Company files its annual report on Form 10-K, quarterly reports on Form 10-Q, Current Reports on Form 8-K, proxy statements, and other documents (including registration statements) with the U.S. Securities and Exchange Commission ("SEC") under the Securities Exchange Act of 1934 or the Securities Act of 1933, as applicable. The Company's SEC filings are available to the public on the SEC's website at <http://www.sec.gov> and through The Nasdaq Global Select Market ("Nasdaq"), 165 Broadway, New York, New York 10006, on which the Company's common stock is listed.

A copy of any of the Company's filings with the SEC, or any of the agreements or other documents that constitute exhibits to those filings, can be obtained by request directed to the Company at the following address and telephone number:

Avnet, Inc.  
2211 South 47<sup>th</sup> Street  
Phoenix, Arizona 85034  
(480) 643-2000  
Attention: Corporate Secretary

The Company also makes these filings available, free of charge, through its website (see "Avnet Website" below).

## **Avnet Website**

In addition to the information about the Company contained in this Report, extensive information about the Company can be found at <http://www.avnet.com>, including information about its management team, products and services, and corporate governance practices.

The corporate governance information on the Company's website includes the current version of the Company's Corporate Governance Guidelines, the Code of Conduct, and the charters for each of the committees of its Board of Directors. Waivers granted to directors and executive officers under the Code of Conduct, if any, will be posted in this area of the website. These documents can be accessed at [ir.avnet.com/documents-charters](http://ir.avnet.com/documents-charters). Printed versions can be obtained, free of charge, by writing to the Company at the address listed above in "Available Information."

The Company's filings with the SEC, as well as Section 16 filings made by any of the Company's executive officers or directors with respect to the Company's common stock, are available on the Company's website ([ir.avnet.com/financial-information/sec-filings](http://ir.avnet.com/financial-information/sec-filings)) as soon as reasonably practicable after the filing is electronically filed with, or furnished to, the SEC.

These details about the Company's website and its content are only for information. The contents of the Company's website are not, nor shall they be deemed to be, incorporated by reference in this Report.

## **Item 1A. Risk Factors**

### **Forward-Looking Statements and Risk Factors**

This Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended ("Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") with respect to the financial condition, results of operations, and business of Avnet. These statements are generally identified by words like "believes," "plans," "projects," "expects," "anticipates," "should," "will," "may," "estimates," or similar expressions. Forward-looking statements are subject to numerous assumptions, risks, and uncertainties, and actual results and other outcomes could differ materially from those expressed or implied in the forward-looking statements. Any forward-looking statement speaks only as of the date on which that statement is made. Except as required by law, the Company does not undertake any obligation to update any forward-looking statements to reflect events or circumstances that occur after the date on which the statement is made.

Risks and uncertainties that may cause actual results to differ materially from those contained in the forward-looking statements include the risk factors discussed below as well as risks and uncertainties not presently known to the Company or that management does not currently consider material. Such factors make the Company's operating results for future periods difficult to predict and, therefore, prior results do not necessarily indicate results in future periods. Some of the risks disclosed below may have already occurred, but not to a degree that management considers material unless otherwise noted. Any of the below factors, or any other factors discussed elsewhere in this Report, may have an adverse effect on the Company's financial condition, operating results, prospects, and liquidity. Similarly, the price of the Company's common stock is subject to volatility due to fluctuations in general market conditions; actual financial results that do not meet the Company's or the investment community's expectations; changes in the Company's or the investment community's expectations for the Company's future results, dividends, or share repurchases; and other factors, many of which are beyond the Company's control.

### ***Changes in customer needs and consumption models***

Changes in customer product demands and consumption models may cause a decline in the Company's billings, which would have a negative impact on the Company's financial results. Changes in technology (such as artificial intelligence) could reduce the types or quantity of services that customers require from the Company. While the Company attempts to identify changes in market conditions as soon as possible, the dynamics of the industries in which it operates make it difficult to predict and timely react to such changes, including those relating to product capacity and lead times. Also, future downturns, inflation, or supply chain challenges, including in the semiconductor, embedded solutions, maintenance, and test and measurement industries, could adversely affect the Company's relationships with its customers, operating results, and profitability.

Specifically, the semiconductor industry experiences periodic fluctuations in product supply and demand (often associated with changes in economic conditions, technology, and manufacturing capacity) and suppliers may not adequately predict or meet customer demand. Geopolitical uncertainty (including from military conflicts, health-related crises, and international trade disputes) has led, and may continue to lead, to shortages, extended lead times, and unpredictability in the supply of certain semiconductors and other electronic components. In reaction, customers may over order to ensure sufficient inventory, which, when the shortage lessens, may result in order cancellations and decreases. In cases where customers have non-cancellable/ non-returnable orders, customers may not be able or willing to carry out the terms of the orders. The Company's prices to customers depend on many factors, including product availability, supplier costs, and competitive pressures. The Company may be unable to increase prices to customers to offset higher internal costs, which could reduce margins. During fiscal 2025, 2024, and 2023, sales of semiconductors represented approximately 78%, 80%, and 81% of the Company's consolidated sales, respectively, and the Company's sales closely follow the strength or weakness of the semiconductor industry. These conditions make it more difficult to manage the Company's business and predict future performance.

### ***Disruptions to key supplier and customer relationships***

One of the Company's competitive strengths is the breadth and quality of the suppliers whose products the Company distributes. For fiscal 2025, one supplier accounted for approximately 10% of the Company's consolidated billings. The Company's contracts with its suppliers vary in duration and are generally terminable by either party at will upon notice. The Company's suppliers may terminate or significantly reduce their volume of business with the Company because of a product shortage, an unwillingness to do business with the Company, changes in strategy, or otherwise.

Shortages of products or loss of a supplier may negatively affect the Company's business and relationships with its customers, as customers depend on the Company's timely delivery of technology hardware and software from the industry's leading suppliers. In addition, shifts in suppliers' strategies, or performance and delivery issues, may negatively affect the Company's financial results. These conditions make it more difficult to manage the Company's business and predict future performance. The competitive landscape has also experienced consolidation among suppliers and capacity constraints, which could negatively impact the Company's profitability and customer base.

Further, if key suppliers modify the terms of their contracts (including terms regarding price protection, rights of return, order cancellation rights, delivery commitments, rebates, or other terms that protect or enhance the Company's gross margins), it could negatively affect the Company's results of operations, financial condition, or liquidity. The Company may attempt to limit associated risks by passing such terms on to its customers, but this may not be possible.

Customers, suppliers, and investors are increasingly requesting information and action regarding the Company's supply chain due diligence, environmental impacts, and other social and governance practices. Such increased expectations may increase costs and result in reputational damage and loss of business if the Company is perceived to have not met such expectations.

***Risks related to international operations***

During fiscal 2025, 2024, and 2023 approximately 77%, 77% and 76%, respectively, of the Company's sales came from its operations outside the United States. The Company's operations are subject to a variety of risks that are specific to international operations, including, but not limited to, the following:

- potential restrictions on the Company's ability to repatriate funds from its foreign subsidiaries;
- foreign currency and interest rate fluctuations;
- non-compliance with foreign and domestic data privacy regulations, business licensing requirements, environmental regulations, and anti-corruption laws, the failure of which could result in severe penalties, including monetary fines and criminal proceedings;
- non-compliance with foreign and domestic import and export regulations and adoption or expansion of trade restrictions, including technology transfer restrictions, additional license, permit or authorization requirements for shipments, specific company sanctions, new and higher duties, tariffs or surcharges, or other import/export controls;
- complex and changing tax laws and regulations;
- regulatory requirements and prohibitions that differ between jurisdictions;
- economic and political instability, terrorism, military conflicts, or civil unrest;
- fluctuations in freight costs (both inbound and outbound), limitations on shipping and receiving capacity, and other disruptions in the transportation and shipping infrastructure;
- natural disasters (including due to climate change), pandemics, and other public health crises;
- differing employment practices and labor issues; and
- non-compliance with local laws.

In addition to the cost of compliance, the potential penalties for violations of import or export regulations and anti-corruption laws, by the Company or its third-party agents, create heightened risks for the Company's international operations. If a regulatory body determines that the Company has violated such laws, the Company could be fined significant sums, incur sizable legal defense costs, have its import or export capabilities restricted or denied, or have its inventories seized, which could have a material and adverse effect on the Company's business. Additionally, allegations that the Company has violated any such regulations may negatively impact the Company's reputation, which may result in customers or suppliers being unwilling to do business with the Company. While the Company has adopted measures and controls designed to ensure compliance with these laws, these measures may not be adequate, and the Company may be materially and adversely impacted in the event of an actual or alleged violation.

Tariffs, trade restrictions, sanctions, or changes in trade policies may adversely affect the Company's sales and profitability. For example, the U.S. administration has made, and continues to make, changes in trade policies, including negotiating or terminating trade agreements, imposing higher tariffs on imports into the United States, and other measures affecting trade between the United States and other countries. Additionally, some countries are changing their trade policies relating to goods imported from the United States. These policies and related geopolitical tensions could dampen consumer demand, increase market volatility, and impact currency exchange rates, each of which could adversely affect the Company's financial performance. Further, evaluating and complying with new and future trade measures diverts management's attention from existing initiatives, which may negatively impact the Company's business operations.

The impact of these trade disruptions is difficult to predict and depends on various factors, including (i) when trade measures are implemented, (ii) the ultimate amount, scope, nature, and duration of tariffs and other trade measures, (iii) and the extent to which price increases, together with mitigation efforts, do not fully offset increased costs. In addition, the impact of trade disruptions on general economic conditions is difficult to predict.

The Company employs and continues to develop systems and other measures to mitigate the impact of tariffs. The Company also has contingency plans to respond to a range of economic scenarios. The Company continues to monitor and evaluate changing trade policies, as well as the overall economic environment in the electronic components industry. However, despite these efforts, the Company may not be able to fully mitigate the impact of changes in trade policies or an economic downturn. These actions have resulted in increased costs, which the Company may not be able to pass on to customers; shortages of materials and electronic components; increased cybersecurity attacks; credit market disruptions; and inflation. In addition, increased operational expenses incurred in minimizing the number of products subject to tariffs could adversely affect the Company's operating profits. These measures have not yet had a material impact, but future actions or escalations that affect trade relations could materially affect the Company's sales and results of operations.

The Company transacts sales, pays expenses, owns assets, and incurs liabilities in countries using currencies other than the U.S. Dollar. Because the Company's consolidated financial statements are presented in U.S. Dollars, the Company must translate such activities and amounts into U.S. Dollars at exchange rates in effect during each reporting period. Therefore, increases or decreases in the exchange rates between the U.S. Dollar and other currencies affect the Company's reported amounts of sales, operating income, and assets and liabilities denominated in foreign currencies. In addition, unexpected and dramatic changes in foreign currency exchange rates may negatively affect the Company's earnings from those markets. While the Company may use derivative financial instruments to reduce its net exposure, foreign currency exchange rate fluctuations may materially affect the Company's financial results. Further, foreign currency instability and disruptions in the credit and capital markets may increase credit risks for some of the Company's customers and may impair its customers' ability to repay existing obligations.

#### ***Internal information systems failures***

The Company depends on its information systems to facilitate its day-to-day operations and to produce timely, accurate, and reliable information on financial and operational results. Currently, the Company's global operations are tracked with multiple information systems, including systems from acquired businesses, some of which are subject to ongoing IT projects designed to streamline or optimize the Company's systems. These IT projects are extremely complex, in part because of wide ranging processes, use of on-premise and cloud environments, the Company's business operations, and changes in information technology. The Company may not always succeed at these efforts. Implementation or integration difficulties may adversely affect the Company's ability to complete business transactions and ensure accurate recording and reporting of financial data. In addition, IT projects may not achieve the expected efficiencies and cost savings, which could negatively impact the Company's financial results. A failure of any of these information systems (including due to power losses, computer and telecommunications failures, cybersecurity incidents, or manmade or natural disasters), or material difficulties in upgrading these information systems, could have an adverse effect on the Company's business, internal controls, and reporting obligations under federal securities laws.

Due to the Company's increased online sales, system interruptions and delays that make its websites and services unavailable or slow to respond may reduce the attractiveness of its products and services to its customers. If the Company is unable to continually improve the efficiency of its systems, it could cause systems interruptions or delays and adversely affect the Company's operating results.

### ***Logistics disruptions***

The Company's global logistics services are operated through specialized and centralized distribution centers around the globe, some of which are outsourced. The Company also depends almost entirely on third-party transportation service providers to deliver products to its customers. A major interruption or disruption in service at one or more of its distribution centers for any reason, or significant disruptions of services from the Company's third-party transportation providers, could cause a delay in expected cost savings or an increase in expenses, which may not be possible to pass on to customers. Such disruptions could result from risks related to information technology, data security, or any of the General Risk Factors, as discussed herein. In addition, as the Company continues to increase capacity at various distribution centers, it may experience operational challenges, increased costs, decreased efficiency, and customer delivery delays and failures. Such operational challenges could have an adverse impact on the Company's business partners, and on the Company's business, operations, financial performance, and reputation.

### ***Data security and privacy threats***

Threats to the Company's data and information technology systems (including cybersecurity attacks such as phishing and ransomware) are becoming more frequent and sophisticated, including through the use of artificial intelligence and machine learning. Threat actors have successfully breached the Company's systems and processes in various ways, and such cybersecurity breaches expose the Company to significant potential liability and reputational harm. Cybersecurity attacks have not yet materially impacted the Company's data (including data about customers, suppliers, and employees) or the Company's operations, financial condition, or data security, but future attacks could have a material impact. Threat actors, including sophisticated nation-state actors, seek unauthorized access to intellectual property, or confidential or proprietary information regarding the Company, its customers, its business partners, or its employees, and may target the Company's systems for espionage, intellectual property theft, or disruption of operations. They deploy malicious software programs that exploit security vulnerabilities, including ransomware designed to encrypt the Company's files so an attacker may demand a ransom for restored access. They also seek to misdirect money, sabotage data and systems, takeover internal processes, and induce employees or other system users to disclose sensitive information, including login credentials. In addition, some Company employees continue to work from home on a full-time or hybrid basis, which increases the Company's vulnerability to cyber and other information technology risks. Further, the Company's business partners and service providers (such as suppliers, customers, and hosted solution providers) pose a security risk because their own security systems or infrastructure may become compromised.

The Company seeks to protect and secure its systems and information, prevent and detect evolving threats, and respond to threats as they occur. Measures taken include implementing and enhancing information security controls, such as enterprise-wide firewalls, intrusion detection, endpoint protection, email security, disaster recovery, vulnerability management, and cybersecurity training for employees to enhance awareness of general security best practices, financial fraud, and phishing. Despite these efforts, the Company may not always be successful. Threat actors frequently change their techniques and technology (such as implementing artificial intelligence) and, consequently, the Company may not always promptly detect the existence or scope of a security breach. As these types of threats grow and evolve, the Company may make further investments to protect its data and information technology infrastructure, which may impact the Company's profitability. The Company's insurance coverage for protecting against cyber attacks may not be sufficient to cover all possible claims, and the Company may suffer losses that could have a material adverse effect on its business. As a global enterprise, the Company may be negatively impacted by existing and proposed laws and regulations, as well as government policies and practices, related to cybersecurity, data privacy, data localization, and data protection. Failure to comply with such requirements could have an adverse effect on the Company's reputation, business, financial condition, and results of operations, as well as subject the Company to significant fines, litigation losses, third-party damages, and other liabilities.

## **Financial Risks**

### ***Inventory value decline***

The electronic components and integrated products industries are subject to technological change, new and enhanced products, changes in customer needs, and changes in industry standards and regulatory requirements, which can cause the Company's inventory to decline in value or become obsolete. Regardless of the general economic environment, prices may decline due to a decrease in demand or an oversupply of products, which may increase the risk of declines in inventory value. Many of the Company's suppliers offer certain protections from the loss in value of inventory (such as price protection and limited rights of return), but such policies may not fully compensate for the loss. Also, suppliers may not honor such agreements, some of which are subject to supplier discretion. In addition, most Company sales are made pursuant to individual purchase orders, rather than through long-term sales contracts. Where there are contracts, such contracts are generally terminable at will upon notice. Unforeseen product developments, inventory value declines, or customer cancellations may adversely affect the Company's business, results of operations, financial condition, or liquidity.

### ***Accounts receivable defaults***

Accounts receivable are a significant portion of the Company's working capital. If entities responsible for a significant amount of accounts receivable cease doing business, direct their business elsewhere, fail to pay, or delay payment, the Company's business, results of operations, financial condition, or liquidity could be adversely affected. An economic or industry downturn could adversely affect the Company's ability to collect receivables, which could result in longer payment cycles, increased collection costs, and defaults exceeding management's expectations. A significant deterioration in the Company's ability to collect accounts receivable in the United States could impact the cost or availability of financing under various financing programs.

### ***Liquidity and capital resources constraints***

The Company's ability to satisfy its cash needs and implement its capital allocation strategy depends on its ability to generate cash from operations and to access the financial markets, both of which are subject to general economic, financial, competitive, legislative, regulatory, and other factors that are beyond the Company's control. In addition to cash on hand, the Company relies on external financing to help satisfy its cash needs. However, various factors affect external financing, including general market conditions, interest rate fluctuations, and the Company's debt ratings and operating results. Consequently, external financing may not be available on acceptable terms or at all. An increase in the Company's debt or deterioration of its operating results may cause a reduction in its debt ratings. Any such reduction could negatively impact the Company's ability to obtain additional financing or renew existing financing at acceptable terms, and could result in reduced credit limits, increased financing expenses, and additional restrictions and covenants. A reduction in its current debt rating may also negatively impact the Company's working capital and impair its relationship with its customers and suppliers.

As of June 28, 2025, the Company had debt outstanding with financial institutions under various notes, secured borrowings, and committed and uncommitted lines of credit. The Company needs cash to pay debt principal and interest, and for general corporate purposes, such as funding its ongoing working capital and capital expenditure needs. Under certain of its credit facilities, the applicable interest rate and costs are based in part on the Company's current debt rating. If its debt rating is reduced, higher interest rates and increased costs would result. A portion of the Company's debt is subject to variable interest rates and an increase in such rates would increase debt service obligations. Any material increase in the Company's financing costs or loss of access to cost-effective financing could have an adverse effect on its profitability, results of operations, and cash flows.

General economic or business conditions, both domestic and foreign, may be less favorable than management expects and could adversely impact the Company's sales or its ability to collect receivables from its customers, which may impact access to the Company's accounts receivable securitization program.

***Financing covenants and restrictions may limit management discretion***

The agreements governing the Company's financing, including its credit facility, accounts receivable securitization program, and the indentures governing the Company's outstanding notes, contain various covenants and restrictions that, in certain circumstances, limit the Company's ability, and the ability of certain subsidiaries, to:

- grant liens on assets;
- make restricted payments (including, under certain circumstances, paying dividends on, redeeming, or repurchasing common stock);
- make certain investments;
- merge, consolidate, or transfer all, or substantially all, of the Company's assets;
- incur additional debt; or
- engage in certain transactions with affiliates.

The Company may be in default under certain of its credit facilities if its leverage ratio exceeds a certain level. In such an event, lenders may accelerate payment, other lenders may declare a cross-default, and the Company may be unable to continue to utilize these facilities, which could cause the Company to have insufficient cash to make interest payments, to repay indebtedness, or for general corporate needs.

As a result of these covenants and restrictions, the Company may be limited in the future in how it conducts its business and may be unable to raise additional debt, repurchase common stock, pay a dividend, compete effectively, or make further investments.

***Tax law changes and compliance***

As a multinational corporation, the Company is subject to the tax laws and regulations of the United States and many foreign jurisdictions. From time to time, governments enact or revise tax laws and regulations, which are further subject to interpretations, guidance, amendments, and technical corrections from international, federal, and state tax authorities. Such changes to tax law may adversely affect the Company's cash flow, costs of share buybacks, and effective tax rate, including through decreases in allowable deductions and higher tax rates.

Many countries have adopted provisions to align their international tax rules with the Base Erosion and Profit Shifting Project, led by the Organisation for Economic Co-operation and Development ("OECD"), which applies to the Company as of fiscal year 2025. The project aims to standardize and modernize global corporate tax policy, and levies a 15% global minimum corporate tax rate on a country-by-country basis on companies with revenue over a set threshold. Various jurisdictions are adopting related regulations at different times and in varying forms. Conflicting regulations or interpretations could increase risk of double taxation, compliance complexity, and disputes with taxing authorities. Furthermore, many countries are independently evaluating their corporate tax policy, which could result in tax legislation and enforcement that adversely impacts the Company's tax provision and value of deferred assets and liabilities.

The tax laws and regulations of the various countries where the Company has operations are extremely complex and subject to varying interpretations. The Company believes that its historical tax positions are sound and consistent with applicable law, and that it has adequately reserved for taxes. However, taxing authorities may challenge such

positions and the Company may not be successful in defending against any such challenges. The Company's future income tax expense could be adversely affected by changes in the mix of earnings in countries with differing statutory tax rates, changes in the valuation of deferred tax assets, and liabilities and changes to its operating structure.

***Constraints on internal controls***

Effective internal controls are necessary for the Company to provide reliable financial reports, safeguard its assets, and prevent and detect fraud. If the Company cannot do so, its brand and operating results could be harmed. Internal controls over financial reporting are intended to prevent and detect material misstatements in its financial reporting and material fraudulent activity, but are limited by human error, circumventing or overriding controls, and fraud. As a result, the Company may not identify all material activity or all immaterial activity that could aggregate into a material misstatement. Therefore, even effective internal controls cannot guarantee that financial statements are wholly accurate or prevent all fraud and loss of assets. Management continually evaluates the effectiveness of the design and operation of the Company's internal controls. However, if the Company fails to maintain the adequacy of its internal controls, including any failure to implement required new or improved internal controls, or if the Company experiences difficulties in their implementation, the Company's business and operating results could be harmed. Additionally, the Company may be subject to sanctions or investigations by regulatory authorities, or the Company could fail to meet its reporting obligations, all of which could have an adverse effect on its business or the market price of the Company's securities.

***Acquisition expected benefits shortfall***

The Company has made, and expects to make, strategic acquisitions or investments globally to further its strategic objectives and support key business initiatives. Acquisitions and investments involve risks and uncertainties, some of which may differ from those associated with the Company's historical operations. Examples include risks relating to expanding into emerging markets and business areas, adding additional product lines and services, impacting existing customer and supplier relationships, incurring costs or liabilities associated with the companies acquired, incurring potential impairment charges on acquired goodwill and other intangible assets, and diverting management's attention from existing operations and initiatives. As a result, the Company's profitability may be negatively impacted. In addition, the Company may not successfully integrate the acquired businesses, or the integration may be more difficult, costly, or time-consuming than anticipated. Further, any litigation involving the potential acquisition or acquired entity may increase expenses associated with the acquisition, cause a delay in completing the acquisition, or impact the ability to integrate the acquired entity, all of which may impact the Company's profitability. The Company may experience disruptions that could, depending on the size of the acquisition, have an adverse effect on its business, especially where an acquisition target may have pre-existing regulatory issues or deficiencies, or material weaknesses in internal controls over financial reporting. Furthermore, the Company may not realize all benefits anticipated from its acquisitions, which could adversely affect the Company's financial performance.

**Legal and Regulatory Risks**

***Legal proceedings costs and damages***

From time to time, the Company may become involved in legal proceedings, including government investigations, that arise out of the ordinary conduct of the Company's business, including matters involving intellectual property rights, commercial matters, merger-related matters, product liability, and other actions. Legal proceedings could result in substantial costs and diversion of management's efforts and other resources, and could have an adverse effect on the Company's operations and business reputation. The Company may be obligated to indemnify and defend its customers if the products or services that the Company sells are alleged to infringe any third party's intellectual property rights. The

Company may not be able to obtain supplier indemnification for itself and its customers against such claims, or such indemnification may not fully protect the Company and its customers against such claims. Also, the Company is exposed to potential liability for technology and products that it develops for which it has no indemnification protections. If an infringement claim against the Company is successful, the Company may be required to pay damages or seek royalty or license arrangements, which may not be available on commercially reasonable terms. The Company may have to stop selling certain products or services, which could affect its ability to compete effectively. In addition, the Company's expanding business activities may include the assembly or manufacture of electronic component products and systems. Product defects, whether caused by a design, assembly, manufacture or component failure or error, or manufacturing processes not in compliance with applicable statutory and regulatory requirements, may result in product liability claims, product recalls, fines, and penalties. Product liability risks could be particularly significant with respect to aerospace, automotive, and medical applications because of the risk of serious harm to users of such products.

#### ***Regulatory non-compliance***

The Company is subject to laws and regulations addressing a variety of issues, including import and export regulations, environmental impacts and related disclosures, data privacy, workplace safety, and supply chain regulations. While the Company strives to fully comply with all applicable regulations, certain of these regulations are subject to differing interpretations and conflicts among various jurisdictions or may impose liability without fault. Additionally, the Company may be held responsible for the prior activities of an entity it acquired.

Failure to comply with these regulations could result in substantial costs, fines, and civil or criminal sanctions, as well as third-party claims for property damage or personal injury. Future regulations may become more stringent over time, imposing greater compliance costs, and increasing risks, penalties and reputational harm associated with violations.

#### **General Risk Factors**

##### ***Negative impacts of economic or geopolitical uncertainty, or a health crisis, on operations and financial results***

Economic weakness and geopolitical uncertainty (including from military conflicts and international trade disputes), as well as health-related crises (including pandemics and epidemics), have resulted, and may result in the future, in a variety of adverse impacts on the Company and its customers and suppliers. Such adverse impacts include decreased sales, margins, and earnings; increased logistics costs; demand uncertainty; constrained workforce participation; global supply chain disruptions; and logistics and distribution system disruptions. Such crises and uncertainties could also result in, or heighten the risks of, customer bankruptcies, customer delayed or defaulted payments, delays in product deliveries, financial market disruption and volatility, and other risk factors described in the Company's Annual Report. As a result, the Company may need to impair assets (including goodwill, intangible assets, and other long-lived assets), implement restructuring actions, and reduce expenses in response to decreased sales or margins.

The Company may not be able to adequately adjust its cost structure in a timely fashion, which may adversely impact its profitability. Uncertainty about economic conditions may increase foreign currency volatility, which may negatively impact the Company's results. Economic weakness and geopolitical uncertainty also make it more difficult for the Company to manage inventory levels (including when customers decrease orders, cancel existing orders, or are unable to fulfill their obligations under non-cancelable/ non-return orders) and collect customer receivables, which may result in provisions to create reserves, write-offs, reduced access to liquidity, higher financing costs, and increased pressure on cash flows.

An increase in or prolonged period of inflation could affect the Company's profitability and cash flows, due to higher wages, higher operating expenses, higher financing costs, and higher supplier prices. Inflation may also adversely

affect foreign exchange rates. The Company may be unable to pass along such higher costs to its customers, which may result in lower gross profit margins. In addition, inflation may adversely affect customers' financing costs, cash flows, and profitability, which could adversely impact their operations and the Company's ability to offer credit and collect receivables.

### ***Competition***

The market for the Company's products and services is very competitive and subject to technological advances (including artificial intelligence), new competitors, non-traditional competitors, and changes in industry standards. The Company competes with other global and regional distributors, as well as some of the Company's own suppliers that maintain direct sales efforts. In addition, as the Company expands its offerings and geographies, the Company may encounter increased competition from current or new competitors. The Company's failure to maintain and enhance its competitive position could adversely affect its business and prospects. Furthermore, the Company's efforts to compete in the marketplace could cause deterioration of gross profit margins and, thus, overall profitability.

The size of the Company's competitors varies across market sectors, as do the resources the Company has allocated to the sectors and geographic areas in which it does business. Therefore, some competitors may have greater resources or a more extensive customer or supplier base in some market sectors and geographic areas. As a result, the Company may not be able to effectively compete in certain markets, which could impact the Company's profitability and prospects.

### ***Employee retention and hiring constraints***

Identifying, hiring, training, developing, and retaining qualified and engaged employees is critical to the Company's success, and competition for experienced employees in the Company's industry can be intense. Restrictions on immigration or changes in immigration laws, including visa restrictions, may limit the Company's acquisition of key talent, including talent with diverse experience and perspectives. Changing demographics and labor work force trends may result in a loss of knowledge and skills as experienced workers leave the Company. As global opportunities and industry demands shift, and as technology (including artificial intelligence) impacts how work is performed, the Company may encounter challenges in realigning, training, and hiring skilled personnel. Through organizational design activities, the Company periodically eliminates positions due to restructurings or other reasons, which may risk the Company's brand reputation as an employer of choice and negatively impact the Company's ability to hire and retain qualified personnel. Also, position eliminations may negatively impact the morale of employees who are not terminated, which could result in work stoppages or slowdowns, particularly where employees are represented by unions or works councils. If these circumstances occur, the Company's business, financial condition, and results of operations could be seriously harmed.

### **Item 1B. Unresolved Staff Comments**

Not applicable.

### **Item 1C. Cybersecurity**

The Company recognizes the importance of assessing, identifying, and managing material risks associated with cybersecurity threats, as defined in Item 106(a) of Regulation S-K. These risks include operational risks; intellectual property theft; fraud; extortion; harm to employees or customers; legal risks, including violations of privacy or data protection laws; and reputational risks. The Company has implemented several cybersecurity processes, technologies, and controls to aid in its efforts.

The Company's Global Cybersecurity & Compliance (GC&C) team maintains a comprehensive cybersecurity program that includes policies, procedures, and standards to govern the safe processing, storage, and transmission of data. GC&C team members have extensive knowledge and experience regarding cybersecurity and the Company's information technology systems. The GC&C team leader reports directly to the Company's Chief Information Officer. The cybersecurity program was developed using practices anchored on the National Institute of Standards and Technology (NIST) Cyber Security Framework (CSF) and seeks to align to the additional cybersecurity measures of NIST 800-171 and ISO27001. Cybersecurity controls are governed by Avnet's Global Information Security Policy (GISP).

The Company has processes for overseeing and identifying cybersecurity threats, vulnerabilities, and controls associated with third-party service providers, including evaluating providers' (i) cybersecurity ratings, (ii) public disclosures related to cybersecurity, (iii) cybersecurity questionnaire responses, and (iv) cybersecurity and IT certifications.

The Company provides quarterly updates to, and receives oversight from, the Technology and Risk Committee on the Company's cybersecurity program, cybersecurity incidents, and the cybersecurity threat landscape. Responsible members of management provide updates to the Company's senior executive team regarding all cybersecurity incidents, the cybersecurity program, and the threat landscape.

The Company's enterprise risk management program (ERM) considers cybersecurity risks (including likelihood, potential severity, and mitigation) alongside other enterprise-wide risks as part of its overall ERM process. The GC&C team administers an IT risk management program that identifies and assesses cybersecurity risks. Its assessments are shared with the Company's enterprise risk management council (ERM Council).

The GC&C team applies an incident response procedure. Among other things, the team appropriately escalates some incidents in real-time, depending on the incident's potential impact and scope. Further, the GC&C team regularly collaborates with other departments—such as legal, corporate security, and human resources—when assessing, identifying, and managing cybersecurity incidents. The Company also retains external cybersecurity response consultants to assist internal resources as needed.

The Company regularly tests the effectiveness of its security program through internal audit and external assessments. The Company makes investments for continual improvements in risk and vulnerability mitigation, including ongoing monitoring, network and system updates, and employee cybersecurity awareness training.

The Company's cybersecurity assessments and auditing include:

- Regular penetration tests conducted by external consultants;
- Regular maturity assessments conducted by external consultants;
- Quarterly self-assessments of internal cybersecurity capabilities; and
- Ongoing internal audits of cybersecurity systems and practices.

The Company's employee communication and training program includes:

- Annual tabletop exercises performed with its executive team;
- Annual tabletop exercises with its cybersecurity incident response team;
- Annually distributing the Global Information Security Policy (GISP) to all employees;

- New hire and biennial computer-based training on data privacy and cybersecurity for all employees, with in-person training for high-risk positions;
- Cybersecurity awareness training videos available to employees and updated quarterly;
- Phishing simulations conducted with employees monthly; and
- Newsletters distributed to all employees on relevant cybersecurity threats.

Please refer to Item 1.A, Risk Factors (Data security and privacy threats) for a discussion of whether cybersecurity threats have or will materially affect the Company, as well as the potential impact on the Company’s operations and financial condition.

## Item 2. Properties

The Company’s Corporate and EC Americas headquarters are in Phoenix, Arizona. The Company owns and leases approximately 2.1 million and 3.7 million square feet of space, respectively, of which approximately 26% is in the United States. The facilities consist of warehousing, integration and value-added operations. The Company believes that the facilities are well maintained and adequate for current and future operating needs. The following table summarizes the square footage of the Company’s facilities by region as of June 28, 2025 (in millions):

	<b>Approximate Square Footage</b>
Americas	2.0
EMEA	2.7
Asia	1.1
Total	5.8

See Note 5, “Property, plant and equipment, net” and Note 11, “Leases” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for additional information on the Company’s properties.

## Item 3. Legal Proceedings

Pursuant to SEC regulations, including but not limited to Item 103 of Regulation S-K, the Company regularly assesses the status of and developments in pending environmental and other legal proceedings to determine whether any such proceedings should be identified specifically in this discussion of legal proceedings, and has concluded that no particular pending legal proceeding requires public disclosure. Based on the information known to date, management believes that the Company has appropriately accrued in its consolidated financial statements for its share of the estimable costs of environmental and other legal proceedings.

The Company is also currently subject to various pending and potential legal matters and investigations relating to compliance with governmental laws and regulations, including import/export and environmental matters. The Company currently believes that the resolution of such matters will not have a material adverse effect on the Company’s financial position or liquidity but could possibly be material to its results of operations in any single reporting period.

## Item 4. Mine Safety Disclosures

Not applicable.

## PART II

### Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

#### Market Information

The Company's common stock is listed on the Nasdaq Global Select Market under the symbol AVT.

#### Dividends

The declaration and payment of future dividends will be at the discretion of the Board of Directors and will be dependent upon the Company's financial condition, results of operations, capital requirements, and other factors the Board of Directors considers relevant. In addition, certain of the Company's debt facilities may restrict the declaration and payment of dividends, depending upon the Company's then current compliance with certain covenants.

#### Record Holders

As of August 7, 2025, there were 1,245 registered holders of record of Avnet's common stock.

#### Stock Performance Graphs and Cumulative Total Returns

The graph below matches the cumulative 5-year total return of holders of Avnet's common stock with (i) the cumulative total returns of the Nasdaq Composite Index and (ii) a customized peer group of five companies (Agilysys Inc., Arrow Electronics Inc., Insight Enterprises Inc., Scansource Inc., and TD Synnex Corporation). The graph assumes that the value of the investment in Avnet's common stock, in each index, and in the peer group (including reinvestment of dividends) was \$100 on 6/27/2020 and tracks it through 6/28/2025.

**COMPARISON OF 5 YEAR CUMULATIVE TOTAL RETURN\***

Among Avnet, Inc. the NASDAQ Composite Index, and a Peer Group

\*\$100 invested on 06/27/20 in stock or index, including reinvestment of dividends.  
Index calculated on month-end basis.

	6/27/2020	7/3/2021	7/2/2022	7/1/2023	6/29/2024	6/28/2025
Avnet, Inc.	\$ 100	\$ 157.60	\$ 170.52	\$ 209.03	\$ 218.81	\$ 229.61
Nasdaq Composite	100	151.15	115.69	144.64	187.46	215.81
Peer Group	100	199.41	177.17	218.32	253.53	256.14

*The stock price performance included in this graph is not necessarily indicative of future stock price performance.*

**Issuer Purchases of Equity Securities**

The Company’s Board of Directors approved the repurchase plan of up to an aggregate of \$600 million of common stock, including the increase approved in August 2024. The following table includes the Company’s monthly purchases of the Company’s common stock, excluding excise tax, during the fourth quarter of fiscal 2025, under the share repurchase program, which is part of publicly announced plans.

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Approximate Dollar Value of Shares That May Yet Be Purchased under the Plans or Programs</b>
March 30 – April 26	1,059,729	\$ 45.98	1,059,729	365,394,000
April 27 – May 24	—	—	—	365,394,000
May 25 – June 28	25,686	\$ 49.59	25,686	364,120,000

**Item 6. [Reserved]**

**Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

For a description of the Company’s critical accounting policies and an understanding of Avnet and the significant factors that influenced the Company’s performance during the past three fiscal years, the following discussion should be read in conjunction with the description of the business appearing in Item 1 of this Report and the consolidated financial statements, including the related notes and schedule, and other information appearing in Item 8 of this Report. Discussions of fiscal 2023 items and year-to-year comparisons between fiscal years 2024 and 2023 are not included in this Form 10-K and can be found in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in Part II, Item 7 of the Company’s Annual Report on Form 10-K for the fiscal year ended June 29, 2024. The Company operates on a “52/53 week” fiscal year. Fiscal years 2025, 2024 and 2023 each contained 52 weeks.

The discussion of the Company’s results of operations includes references to the impact of foreign currency translation. When the U.S. Dollar strengthens and the stronger exchange rates are used to translate the results of operations of Avnet’s subsidiaries denominated in foreign currencies, the result is a decrease in U.S. Dollars of reported results. Conversely, when the U.S. Dollar weakens, the weaker exchange rates result in an increase in U.S. Dollars of reported results. In the discussion that follows, results excluding this impact, primarily for subsidiaries in EMEA and Asia, are referred to as “constant currency.”

In addition to disclosing financial results that are determined in accordance with generally accepted accounting principles in the U.S. (“GAAP”), the Company also discloses certain non-GAAP financial information, including:

- “Adjusted operating income,” which is operating income excluding (i) restructuring, integration and other expenses, and (ii) amortization of acquired intangible assets.

The following table provides a reconciliation of operating income to adjusted operating income:

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
		<b>(Thousands)</b>	
Operating income	\$ 514,254	\$ 844,367	\$ 1,186,800
Restructuring, integration, and other expenses	108,316	52,550	28,038
Amortization of acquired intangible assets	1,463	3,130	6,053
Adjusted operating income	\$ 624,033	\$ 900,047	\$ 1,220,891

Management believes that providing this additional information is useful to financial statement users to better assess and understand operating performance, especially when comparing results with prior periods or forecasting performance for future periods, primarily because management typically monitors the business with and without these adjustments to GAAP results. Management also uses these non-GAAP measures to establish operational goals and, in

many cases, for measuring performance for compensation purposes. However, any analysis of results on a non-GAAP basis should be used in conjunction with results presented in accordance with GAAP.

### **Industry outlook**

The Company's operations subject it to tariffs and other trade protection measures. The U.S. administration has instituted certain changes, and may make additional changes, in trade policies that include the negotiation or termination of trade agreements, higher tariffs on imports into the U.S., and other measures affecting trade between the U.S. and other countries from which the Company imports. Due in part to these measures, some countries are changing their trade policies relating to goods imported from the U.S. These global trade disruptions and geopolitical tensions, together with any related downturns in the global economy, could dampen customer demand, increase market volatility, and impact currency exchange rates, all of which could materially and adversely affect the Company's financial performance. Evaluating and complying with new and future trade measures diverts management's attention from existing initiatives, which may negatively impact the Company's business operations.

The impact of these changes in trade policies will depend on various factors, including (i) when trade measures are implemented, (ii) the ultimate amount, scope, nature, and duration of tariffs and other trade measures, and (iii) the extent to which the Company can mitigate impacts and pass on any increased costs associated with these changes. In addition, the impact of trade disruptions on general economic conditions and demand for electronic components is difficult to predict.

The Company employs and continues to develop systems and other measures to mitigate the impact of tariffs, including selective supply chain, logistics, and pricing actions. The Company also has contingency plans to respond to a range of economic scenarios. The Company's management continues to monitor and evaluate the changing tariff situation, as well as the overall environment in the electronic components industry. However, despite these efforts, the Company may not be able to fully mitigate the impact of changes in trade policies or an economic downturn.

The global electronic components market has a history of cyclical downturns followed by periods of increased demand. Beginning in the second half of calendar year 2023, the industry began to experience a downturn marked by a decrease in sales due to a combination of elevated customer inventory levels and lower underlying demand for electronic components. As a result, the Company has seen decreased sales, resulting in lower operating income. The duration of the current downturn is uncertain. The Company expects sales in the first quarter of fiscal 2026 to be approximately 2% growth across all regions from the fourth quarter of fiscal 2025 sales.

Additionally, the Company's inventories relative to its sales are higher than they have historically been as a result of this industry downturn. The Company has and may in the future purchase additional inventories from electronic component suppliers, even in an industry downturn, if the Company believes the purchase will benefit the Company's financial or strategic business objectives.

## Results of Operations

	Years Ended			
	June 28, 2025	June 29, 2024	Variance	Variance %
	<i>(\$ in millions, unless otherwise stated)</i>			
Sales	\$ 22,201	\$ 23,757	\$ (1,556)	(6.6) %

### Sales

#### Analysis of Sales: By Operating Group and Geography

The table below provides sales change rates for fiscal 2025 as compared to fiscal 2024 as reported and on a constant currency basis by geographic region and operating group.

	Years Ended				Sales Year-Year % Change	Sales Year-Year % Change in Constant Currency
	June 28, 2025	% of Total	June 29, 2024	% of Total		
<b>Sales by Operating Group:</b>						
EC	\$ 20,755.0	93.5 %	\$ 22,160.0	93.3 %	(6.3)%	(6.4)%
Farnell	1,445.8	6.5 %	1,597.1	6.7 %	(9.5)%	(9.9)%
Total Avnet	<u>\$ 22,200.8</u>		<u>\$ 23,757.1</u>		(6.6)%	(6.7)%
<b>Sales by Geographic Region:</b>						
Americas	\$ 5,300.0	23.9 %	\$ 5,919.2	24.9 %	(10.5)%	(10.5)%
EMEA	6,409.6	28.9 %	8,395.0	35.3 %	(23.7)%	(24.1)%
Asia	10,491.2	47.2 %	9,442.9	39.8 %	11.1 %	11.1 %
Total Avnet	<u>\$ 22,200.8</u>		<u>\$ 23,757.1</u>			

Avnet's sales for fiscal 2025 were \$22.20 billion, a decrease of \$1.56 billion, or 6.6%, from fiscal 2024 sales of \$23.76 billion. Sales in constant currency decreased 6.7% year over year, reflecting a reduction in sales volume primarily due to the lower demand for electronic components. Sales declined in the western regions, while sales in Asia experienced year-over-year growth.

EC sales in fiscal 2025 were \$20.75 billion, representing a 6.3% decrease over fiscal 2024 sales of \$22.16 billion. EC sales decreased 6.4% year over year in constant currency. The decrease in EC sales is primarily due to sales volume decreases in the western regions due to the market downturn in the electronic components industry and, to a lesser extent, an unfavorable product mix of lower-priced electronic components. The average selling prices of like for like electronic components remained relatively stable between fiscal 2025 and fiscal 2024.

Farnell sales in fiscal 2025 were \$1.45 billion, a decrease of \$151.3 million or 9.5%, from fiscal 2024 sales of \$1.60 billion. The year-over-year decrease in sales was primarily a result of lower demand for on-the-board electronic components.

### ***Gross Profit***

The Company's gross profit is primarily affected by sales volume, product mix, and geographic sales mix. Gross profit in fiscal 2025 was \$2.38 billion, a decrease of \$381.5 million, or 13.8%, from fiscal 2024 gross profit of \$2.77 billion primarily due to lower sales volumes, as described above. Gross profit margin decreased to 10.7% in fiscal 2025 or 90 basis points from fiscal 2024 gross profit margin of 11.6%. The decrease in gross profit margin is primarily due to a shift in geographic sales mix to Asia. Sales in the higher margin western regions represented approximately 53% of sales in fiscal 2025, versus 60% of sales in fiscal 2024.

EC gross profit margin decreased year over year largely due to the change in geographic mix, partially offset by increases in gross margin from certain supplier engagements. Average selling prices of like for like electronic components at EC remained relatively stable between fiscal 2025 and fiscal 2024.

Farnell gross profit margin decreased year over year, primarily due to lower sales of higher margin on-the-board electronic components.

### ***Selling, General and Administrative Expenses***

Selling, general and administrative expenses ("SG&A expenses") in fiscal 2025 were \$1.76 billion, a decrease of \$107.1 million, or 5.7%, from fiscal 2024. The year-over-year decrease in SG&A expenses was primarily due to decreases in variable operating expenses associated with the decrease in sales volumes discussed above, from restructuring actions taken by the Company, and by the impact of changes in foreign currency translation rates.

Metrics that management monitors with respect to its operating expenses are SG&A expenses as a percentage of sales and as a percentage of gross profit. In fiscal 2025, SG&A expenses as a percentage of sales were 7.9% and as a percentage of gross profit were 73.9%, as compared with 7.9% and 67.6%, respectively, in fiscal 2024. The increases in SG&A expenses as a percentage of gross profit resulted primarily from the decreases in sales and gross profit without a proportional reduction in SG&A expenses, resulting in lower operating leverage.

### ***Restructuring, Integration and Other Expenses***

In fiscal 2024, the Company initiated a restructuring plan to reduce SG&A expenses including within the Farnell operating group. These efforts continued in fiscal 2025 and included EC Americas and EC EMEA.

As a result of these restructuring initiatives, the Company incurred \$56.1 million for restructuring expenses consisting of severance and other employee-related expenses of \$32.2 million for reduction of over 400 employees across the Company, \$5.6 million of facility exit costs primarily related to an office closure in the Americas, \$14.9 million of asset impairments, and \$3.4 million of other restructuring costs primarily related to software licenses not in

use. The Company also recorded \$14.5 million of integration costs, a benefit of \$6.0 million for changes in estimates for costs associated with prior year restructuring actions, and \$43.7 million of other costs primarily related to the estimated contingent liability associated with an ongoing consumption tax audit in Mexico.

See Note 13, “Commitments and contingencies” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for additional information related to the consumption tax audit in Mexico.

The after-tax impact of restructuring, integration, and other expenses were \$87.6 million and \$1.01 per share on a diluted basis.

During fiscal 2024 the Company recorded restructuring, integration, and other expenses of \$52.6 million, which consists of restructuring costs of \$39.5 million, integration expenses of \$13.1 million, and \$5.5 million of other expenses, offset by a benefit of \$5.5 million.

See Note 17, “Restructuring expenses” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for additional information related to restructuring expenses.

### ***Operating Income***

Operating income for fiscal 2025 was \$514.3 million, a decrease of \$330.1 million or 39.1%, from fiscal 2024 operating income of \$844.4 million. Operating income margin was 2.3% in fiscal 2025 compared to 3.6% in fiscal 2024. Adjusted operating income for fiscal 2025 was \$624.0 million, a decrease of \$276.0 million or 30.7%, from fiscal 2024 adjusted operating income of \$900.0 million. Adjusted operating income margin was 2.8% in fiscal 2025 compared to 3.8% in fiscal 2024. The decreases in operating income and operating income margin are primarily due to the decrease in sales, lower gross profit margin, and impact from foreign currency exchange rates.

EC operating income decreased 25.3% to \$708.2 million, and EC operating income margin decreased 87 basis points to 3.4% in fiscal 2025, with decreases in both the EMEA and Americas regions, offset by an increase in the Asia region. Farnell operating income decreased 49.3% to \$32.8 million in fiscal 2025 and Farnell operating income margin decreased 179 basis points to 2.3% in fiscal 2025. The decreases in operating income and operating income margin in both operating groups are due to the decrease in gross profit primarily from lower sales and from a lower gross profit margin without a proportionate decrease in SG&A expenses.

### ***Interest and Other Financing Expenses, Net and Other (Expense) Income, Net***

Interest and other financing expenses for fiscal 2025 was \$246.4 million, a decrease of \$36.5 million, or 12.9%, compared with interest and other financing expenses of \$282.9 million in fiscal 2024. The decrease in interest and other financing expenses in fiscal 2025 compared to fiscal 2024 is primarily a result of lower outstanding borrowings and average borrowing rates.

The Company had other expense of \$17.3 million in fiscal 2025, compared to other expense of \$15.7 million in fiscal 2024. The increase in other expenses is primarily due to foreign currency translation losses.

### ***Gain on Legal Settlements and Other***

During fiscal 2024, the Company recorded a gain on legal settlements and other of \$86.5 million in connection with the settlement of claims filed against certain manufacturers of capacitors.

### ***Income Tax***

Income tax expenses were \$10.4 million in fiscal 2025, reflecting an effective tax rate of 4.1% as compared to income tax expenses of \$133.6 million in fiscal 2024, reflecting an effective tax rate of 21.1%. The decrease in the effective tax rate in fiscal 2025 as compared to fiscal 2024 was primarily due to the increases in tax attribute carryforwards, partially offset by increases to valuation allowances.

See Note 9, “Income taxes” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for further discussion on the effective tax rate.

### ***Net Income***

As a result of the factors described in the preceding sections of this MD&A, the Company’s net income in fiscal 2025 was \$240.2 million, or earnings per share on a diluted basis of \$2.75, compared with fiscal 2024 net income of \$498.7 million, or earnings per share on a diluted basis of \$5.43.

## **Liquidity and Capital Resources**

### ***Cash Flows***

#### *Operating Activities*

Net cash provided by operating activities was \$724.5 million during fiscal 2025, compared to net cash provided by operating activities of \$690.0 million during fiscal 2024. The \$34.5 million increase in net cash provided by operating activities year over year is primarily due to improvements in cash used for working capital and other as working capital levels have begun to be more in line with sales including the reduction of inventories, offset by lower cash provided by net income. Cash generated by working capital and other was \$402.2 million during fiscal 2025, compared to cash generated by working capital of \$11.2 million during fiscal 2024, with the difference attributable primarily to decreases in inventory purchases and the timing of payments for inventory purchases. The Company also had decreases in accounts receivable due to cash collections and lower sales when compared to the prior fiscal year. Included in other, net was a gain of \$9.2 million recognized on the sale of a building during fiscal 2025. The Company received \$90.7 million of cash from legal settlements during fiscal 2024.

#### *Financing Activities*

Net repayments of debt totaled \$274.9 million during fiscal 2025, including the repayment of \$357.3 million under the Credit Facility, and \$2.5 million for other debt, offset by net proceeds of \$84.9 million under the Securitization Program. This compares to \$156.5 million of net repayments during fiscal 2024. The Company paid cash dividends to shareholders of \$1.32 per share, or \$113.3 million, during fiscal 2025 as compared to \$1.24 per share, or \$112.0 million, during fiscal 2024. The Company has repurchased \$303.5 million of common stock under the share repurchase plan during fiscal 2025 compared to \$162.7 million during fiscal 2024.

#### *Investing Activities*

The Company’s purchases of property, plant and equipment decreased during fiscal 2025 by \$79.0 million, when compared to fiscal 2024, primarily due to a distribution center investment in EMEA in fiscal 2024. Included in other, net were net proceeds of \$9.2 million on the sale of a building received during fiscal 2025.

### ***Financing Transactions***

The Company uses a variety of financing arrangements, both short-term and long-term, to fund its operations in addition to historical cash generated from operating activities. The Company also uses several funding sources to avoid becoming overly dependent on one financing source, and to lower overall funding costs. These financing arrangements include public debt (“Notes”), short-term and long-term bank loans, a revolving credit facility (the “Credit Facility”), and an accounts receivable securitization program (the “Securitization Program”).

The Company has various lines of credit, financing arrangements, and other forms of bank debt in the U.S. and various foreign locations to fund the short-term working capital, foreign exchange, overdraft, capital expenditure, and letter of credit needs of its wholly owned subsidiaries. Outstanding borrowings under such forms of debt at the end of fiscal 2025 was \$24.9 million.

As an alternative form of liquidity outside of the United States, the Company sells certain of its trade accounts receivable on a non-recourse basis to financial institutions pursuant to factoring agreements. The Company accounts for these transactions as sales of receivables and presents cash proceeds as cash provided by operating activities in the consolidated statements of cash flows. Factoring fees for the sales of trade accounts receivable are classified within “Interest and other financing expenses, net” of the consolidated financial statements.

See Note 7, “Debt” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for additional information on financing transactions including the Credit Facility, the Securitization Program and the outstanding Notes as of June 28, 2025.

### ***Covenants and Conditions***

The Company’s Credit Facility contains certain covenants with various limitations on debt incurrence, share repurchases, dividends, investments and capital expenditures, and also includes a financial covenant requiring the Company to maintain a leverage ratio below a certain threshold. The Company was in compliance with all such covenants as of June 28, 2025.

The Company’s Securitization Program contains certain covenants relating to the quality of the receivables sold. If these conditions are not met, the Company may not be able to borrow any additional funds and the financial institutions may consider this an amortization event, as defined in the Securitization Program agreements, which would permit the financial institutions to liquidate the accounts receivables sold to cover any outstanding borrowings. Circumstances that could affect the Company’s ability to meet the required covenants and conditions of the Securitization Program include the Company’s ongoing profitability and various other economic, market, and industry factors. The Company was in compliance with all such covenants as of June 28, 2025.

Management does not believe that the covenants under the Credit Facility or Securitization Program limit the Company’s ability to pursue its intended business strategy or its future financing needs.

See *Liquidity* below for further discussion of the Company’s availability under these various facilities.

### ***Liquidity***

The Company held cash and cash equivalents of \$192.4 million as of June 28, 2025, of which \$181.8 million was held outside the United States. As of June 29, 2024, the Company held cash and cash equivalents of \$310.9 million, of which \$179.6 million was held outside of the United States.

During periods of weakening demand in the electronic components industry, the Company typically generates cash from operating activities. Conversely, the Company will use cash for working capital requirements during periods of higher growth. The Company generated \$724.5 million in cash flows for operating activities during the fiscal year ended June 28, 2025.

Liquidity is subject to many factors, such as normal business operations and general economic, financial, competitive, legislative, and regulatory factors that are beyond the Company's control. Cash balances held in foreign locations that cannot be remitted back to the U.S. in a tax efficient manner are generally used for ongoing working capital, including the need to purchase inventories, capital expenditures and other foreign business needs. In addition, local government regulations may restrict the Company's ability to move funds among various locations under certain circumstances. Management does not believe such restrictions would limit the Company's ability to pursue its intended business strategy.

As of June 28, 2025, there were \$411.6 million of borrowings outstanding under the Credit Facility and \$0.9 million in letters of credit issued, and \$500.0 million outstanding under the Securitization Program. During fiscal 2025, the Company had an average daily balance outstanding under the Credit Facility of approximately \$1.00 billion and \$490.5 million under the Securitization Program. During fiscal 2024, the Company had an average daily balance outstanding under the Credit Facility of approximately \$1.17 billion and \$596.7 million under the Securitization Program. The Company expects to redeem the \$550.0 million of 4.63% Notes due April 2026 either through the issuance of new debt or from available borrowing capacity under the Credit Facility. As of June 28, 2025, the combined availability under the Credit Facility and the Securitization Program was \$1.09 billion. Availability under the Securitization Program is subject to the Company having sufficient eligible trade accounts receivable in the United States to support desired borrowings.

The Company has the following contractual obligations outstanding as of June 28, 2025 (in millions):

Contractual Obligations	Total	Payments due by period			More than 5 years
		Less than 1 year	1-3 years	3-5 years	
Long-term debt obligations <sup>(1)</sup>	\$ 2,670.8	\$ 637.2	\$ 1,000.0	\$ 411.6	\$ 622.0
Interest expense on long-term debt obligations <sup>(2)</sup>	\$ 430.4	\$ 117.8	\$ 177.0	\$ 92.4	\$ 43.2
Operating lease obligations <sup>(3)</sup>	\$ 380.5	\$ 60.7	\$ 70.9	\$ 36.8	\$ 212.1

<sup>(1)</sup> Includes amounts due within one year and excludes unamortized discount and issuance costs on debt.

<sup>(2)</sup> Represents interest expense due on debt by using fixed interest rates for fixed rate debt and assuming the same interest rate at the end of fiscal 2025 for variable rate debt.

<sup>(3)</sup> Excludes imputed interest on operating lease liabilities.

The Company purchases inventories in the normal course of business throughout the year through the issuance of purchase orders to suppliers. During fiscal 2025, the Company's cost of sales, substantially all of which related to the underlying purchase of inventories was \$19.8 billion and the Company had \$5.2 billion of inventories as of June 28, 2025. The Company expects to continue to purchase sufficient inventory to meet its customers' demands in fiscal year 2026, some of which relates to outstanding purchase orders at the end of fiscal 2025. Outstanding purchase orders with suppliers may be non-cancellable/non-returnable at the point such orders are issued or may become non-cancellable at some point in the future, typically within 30 days to 90 days from the requested delivery date of inventories.

At June 28, 2025, the Company had an estimated liability for income tax contingencies of \$120.5 million, which is not included in the above table. Immaterial cash payments associated with the settlement of these liabilities are expected to be paid within the next 12 months. The settlement period for the remaining amount of the unrecognized tax benefits, including related accrued interest and penalties, cannot be determined, and therefore was not included in the table.

As of June 28, 2025, the Company may repurchase up to an aggregate of \$364.1 million of shares of the Company's common stock through the share repurchase program approved by the Board of Directors. The Company may repurchase stock from time to time at the discretion of management, subject to strategic considerations, market conditions including share price and other factors. The Company may terminate or limit the share repurchase program at any time without prior notice. During fiscal 2025, the Company repurchased \$301.4 million of common stock.

The Company has historically paid quarterly cash dividends on shares of its common stock, and future dividends are subject to approval by the Board of Directors. During the fourth quarter of fiscal 2025, the Board of Directors approved a dividend of \$0.33 per share, which resulted in \$27.7 million of dividend payments during the quarter.

The Company continually monitors and reviews its liquidity position and funding needs. Management believes that the Company's ability to generate operating cash flows through the liquidation of working capital in the future and available borrowing capacity, including capacity for the non-recourse sale of trade accounts receivable, will be sufficient to meet its future liquidity needs. Additionally, the Company believes that it has sufficient access to additional liquidity from the capital markets if necessary.

During fiscal 2026 the Company may use cash for investing and financing activities including the payment of cash dividends and capital expenditures for distribution centers and information systems including digital tools and capabilities. The Company may also use cash in fiscal 2026 for share repurchases and for acquisitions.

### **Critical Accounting Policies**

The Company's consolidated financial statements have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, sales and expenses. These estimates and assumptions are based upon the Company's continual evaluation of available information, including historical results and anticipated future events. Actual results may differ materially from these estimates.

The Securities and Exchange Commission defines critical accounting policies as those that are, in management's view, most important to the portrayal of the Company's financial condition and results of operations and that require significant judgments and estimates. Management believes the Company's most critical accounting policies at the end of fiscal 2025 relate to the valuation of inventories and accounting for income taxes.

#### ***Valuation of Inventories***

Inventories are recorded at the lower of cost or estimated net realizable value. Inventory cost includes the purchase price of finished goods, and any freight cost incurred to receive the inventory into the Company's distribution centers. The Company's inventories include electronic components sold into changing, cyclical, and competitive markets, so inventories may decline in market value or become obsolete.

The Company regularly evaluates inventories for expected customer demand, obsolescence, current market prices, and other factors that may render inventories less marketable. Write-downs are recorded so that inventories reflect the estimated net realizable value and take into account the Company's contractual provisions with its suppliers, which may

provide certain protections to the Company for product obsolescence and price erosion in the form of rights of return, stock rotation rights, obsolescence allowances, industry specific supplier rebate programs and price protections. Because of the large number of products and suppliers and the complexity of managing the process around price protections, supplier rebate programs and stock rotations, estimates are made regarding the net realizable value of inventories. Additionally, assumptions about future demand and market conditions, as well as decisions to discontinue certain product lines, impact the evaluation of whether to write-down inventories. If future demand changes or actual market conditions are less favorable than assumed, then management evaluates whether additional write-downs of inventories are required. In any case, actual net realizable values could be different from those currently estimated.

#### ***Accounting for Income Taxes***

Management's judgment is required in determining income tax expense, unrecognized tax benefit liabilities, deferred tax assets and liabilities, and valuation allowances recorded against net deferred tax assets. Recovering net deferred tax assets depends on the Company's ability to generate sufficient future taxable income in certain jurisdictions. In addition, when assessing the need for valuation allowances, the Company considers historic levels and types of income, expectations and risk associated with estimates of future taxable income, and ongoing prudent and feasible tax planning strategies. If the Company determines that it cannot realize all or part of its deferred tax assets in the future, it may record additional valuation allowances against the deferred tax assets with a corresponding increase to income tax expense in the period such determination is made. Similarly, if the Company determines that it can realize all or part of its deferred tax assets that have an associated valuation allowance established, the Company may release a valuation allowance with a corresponding benefit to income tax expense in the period such determination is made.

The Company establishes contingent liabilities for potentially unfavorable outcomes of positions taken on certain tax matters. These liabilities are based on management's assessment of whether a tax benefit is more likely than not to be sustained upon examination by tax authorities. The anticipated and actual outcomes of these matters may differ, which may result in changes in estimates to such unrecognized tax benefit liabilities. To the extent such changes in estimates are necessary, the Company's effective tax rate may fluctuate. In accordance with the Company's accounting policy, accrued interest and penalties related to unrecognized tax benefits are recorded as a component of income tax expense.

In determining the Company's income tax expense, management considers current tax regulations in the numerous jurisdictions in which it operates, including the impact of tax law and regulation changes in the jurisdictions the Company operates in. The Company exercises judgment for interpretation and application of such current tax regulations. Changes to such tax regulations or disagreements with the Company's interpretation or application by tax authorities in any of the Company's major jurisdictions may have a significant impact on the Company's income tax expense.

See Note 9, "Income taxes" to the Company's consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for further discussion on income tax expense, valuation allowances and unrecognized tax benefits.

#### **Recently Issued Accounting Pronouncements**

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740): Improvements to Tax Disclosures* ("ASU No. 2023-09"), which updates income tax disclosures related to the effective income tax rate reconciliation and requires disclosure of income taxes paid by jurisdiction. ASU No. 2023-09 will be effective for the Company in fiscal year 2026 and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2023-09 on its disclosures.

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses* (“ASU 2024-03”), and in January 2025, the FASB issued ASU 2025-01, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures: Clarifying the Effective Date* (“ASU 2025-01”). The guidance is designed to improve financial reporting by requiring public business entities to disclose additional information about specific expense categories in the financial statement notes at interim and annual reporting periods. ASU No. 2024-03, as clarified by ASU 2025-01, will be effective for the Company in fiscal year 2028 and early adoption is permitted. The Company is currently evaluating the impact of adopting ASU No. 2024-03 on its disclosures.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

The Company seeks to reduce earnings and cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering financial arrangements, from time to time, which are intended to provide an economic hedge against all, or a portion of, the risks associated with such volatility. The Company continues to have exposure to such risks to the extent they are not economically hedged.

The following table sets forth the scheduled maturities of the Company’s debt outstanding at June 28, 2025 (dollars in millions):

	Fiscal Year						Total
	2026	2027	2028	2029	2030	Thereafter	
<b>Liabilities:</b>							
Fixed rate debt <sup>(1)</sup>	\$ 552.9	\$ —	\$ 500.0	\$ —	\$ —	\$ 622.0	\$ 1,674.9
Floating rate debt	\$ 84.3	\$ 500.0	\$ —	\$ —	\$ 411.6	\$ —	\$ 995.9

(1) Excludes unamortized discounts and issuance costs.

The following table sets forth the carrying value and fair value of the Company’s debt and the average interest rates at June 28, 2025, and June 29, 2024 (dollars in millions):

	Carrying Value at June 28, 2025	Fair Value at at June 28, 2025	Carrying Value at June 29, 2024	Fair Value at June 29, 2024
<b>Liabilities:</b>				
Fixed rate debt <sup>(1)</sup>	\$ 1,674.9	\$ 1,660.5	\$ 1,675.4	\$ 1,621.1
Average interest rate	5.0 %		5.0 %	
Floating rate debt	\$ 995.9	\$ 995.9	\$ 1,235.5	\$ 1,235.5
Average interest rate	5.3 %		5.5 %	

(1) Excludes unamortized discounts and issuance costs. Fair value was estimated primarily based upon quoted market prices for the Company’s public long-term notes.

Many of the Company’s subsidiaries purchase and sell products in currencies other than their functional currencies, which subjects the Company to the risks associated with fluctuations in currency exchange rates. The Company uses economic hedges to reduce this risk utilizing natural hedging (i.e., offsetting receivables and payables in the same foreign currency) and creating offsetting positions through the use of derivative financial instruments (primarily forward foreign currency exchange contracts typically with maturities of less than 60 days, but no longer than one year). The Company continues to have exposure to foreign currency risks to the extent they are not economically hedged. The Company adjusts any economic hedges to fair value within the same line item in the consolidated statements of operations as the remeasurement of the underlying assets or liabilities being economically hedged. Therefore, the

changes in valuation of the underlying items being economically hedged are offset by the changes in fair value of the forward foreign exchange contracts. A hypothetical 10% change in foreign currency exchange rates under the forward foreign currency exchange contracts outstanding at June 28, 2025, would result in an increase or decrease of approximately \$25.0 million to the fair value of the forward foreign exchange contracts, which would generally be offset by an opposite effect on the underlying exposure being economically hedged. See Note 2, “Derivative financial instruments” to the Company’s consolidated financial statements included in Item 8 of this Annual Report on Form 10-K for further discussion on derivative financial instruments.

## Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors  
Avnet, Inc.:

### *Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting*

We have audited the accompanying consolidated balance sheets of Avnet, Inc. and subsidiaries (the Company) as of June 28, 2025 and June 29, 2024, the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended June 28, 2025, and the related notes and financial statement schedules II (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of June 28, 2025, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of June 28, 2025 and June 29, 2024, and the results of its operations and its cash flows for each of the years in the three-year period ended June 28, 2025, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 28, 2025 based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

### *Basis for Opinions*

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

### *Definition and Limitations of Internal Control Over Financial Reporting*

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with

generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

*Critical Audit Matter*

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

*Evaluation of accounting for income taxes*

As discussed in Notes 1 and 9 to the consolidated financial statements, the Company recognized \$324.0 million of deferred tax assets, net and income tax expense of \$10.4 million as of and for the year ended June 28, 2025. The Company conducts business globally and consequently is subject to U.S. federal, state, and local income taxes as well as foreign income taxes in many of the jurisdictions in which it operates. The Company exercises judgment for the interpretation and application of such current tax regulations.

We identified the evaluation of accounting for income taxes as a critical audit matter. Evaluating the Company's application of current tax regulations in various foreign jurisdictions and the impact of those regulations on foreign, U.S. federal, state and local income tax provisions required complex auditor judgment and the use of tax professionals with specialized skills.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Company's income tax process, including controls related to the application of current tax regulations in the various tax jurisdictions and impact on the Company's tax provisions. We involved tax professionals with specialized skills and knowledge in various tax jurisdictions, who assisted in evaluating the Company's analyses over the application of current tax regulations and the Company's interpretation of tax laws and regulations in those jurisdictions.

/s/ KPMG LLP

We have served as the Company's auditor since 2002.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Summary of significant accounting policies**

*Basis of presentation* — The accompanying consolidated financial statements include the accounts of Avnet, Inc. and all of its majority-owned and controlled subsidiaries (the “Company” or “Avnet”). All intercompany and intracompany accounts and transactions have been eliminated.

*Reclassifications* — Certain prior period amounts have been reclassified or combined to conform to the current period presentation.

*Fiscal year* — The Company operates on a “52/53 week” fiscal year, which ends on the Saturday closest to June 30th. Fiscal 2025, 2024 and 2023 contain 52 weeks. Unless otherwise noted, all references to “fiscal” or “year” shall mean the Company’s fiscal year.

*Management estimates* — The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, reported amounts of sales and expenses and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Actual results could differ materially from those estimates.

*Cash and cash equivalents* — The Company considers all highly liquid investments with an original maturity of three months or less including money market funds to be cash equivalents.

*Receivables* – Receivables, predominately comprised of customer trade accounts, are reported at amortized cost, net of the allowance for credit losses in the consolidated balance sheets. The allowance for credit losses is a valuation account that is deducted from the receivables’ amortized cost basis to present the net amount expected to be collected. The Company estimates the allowance for credit losses using relevant available information about expected credit losses, including information about historical credit losses, past events, current conditions, and other factors which may affect the collectability of receivables. Adjustments to historical loss information are made for differences in current receivable specific risk characteristics, such as changes in customer behavior, economic and industry changes, or other relevant factors. Expected credit losses are estimated on a pooled basis when similar risk characteristics exist.

*Inventories* — Inventories, comprised principally of finished goods, are stated at the lower of cost or net realizable value. Inventory cost includes the purchase price of finished goods, and any freight cost incurred to receive the inventory into the Company’s distribution centers. The Company regularly reviews the cost of inventory against its estimated net realizable value, considering historical experience and any contractual rights of return, stock rotations, vendor rebates, excess, and obsolescence allowances, or price protections provided by the Company’s suppliers. It records the lower of cost or net realizable value write-down if any inventories have a cost in excess of such inventories’ estimated net realizable value.

*Depreciation, amortization and useful lives* — The Company reports property, plant, and equipment at cost, less accumulated depreciation. Cost includes the price paid to acquire or construct the assets, required installation costs, interest capitalized during the construction period, and any expenditure that substantially adds to the value or substantially extends the useful life of an existing asset. Additionally, the Company capitalizes qualified costs related to software obtained or developed for internal use as a component of property, plant, and equipment. Software obtained for

**AVNET, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

internal use has generally been enterprise-level business operations, logistics, and finance software that is customized to meet the Company's specific operational requirements. The Company begins depreciation and amortization ("depreciation") for property, plant, and equipment when an asset is both in the location and condition for its intended use.

Property, plant, and equipment is depreciated using the straight-line method over its estimated useful lives. The estimated useful lives for property, plant, and equipment are typically as follows: buildings (30 years); machinery, fixtures and equipment (2-10 years); information technology hardware and software (2-10 years); and leasehold improvements (over the applicable lease term or economic useful life, if shorter).

The Company amortizes intangible assets acquired in business combinations or asset combinations using the straight-line method over the estimated economic useful lives of the intangible assets from the date of acquisition, which is generally between 5-10 years.

*Long-lived asset impairment* — Long-lived assets, including property, plant, equipment, intangible assets and operating lease assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. For purposes of recognition and measurement of an impairment loss, long-lived assets are grouped with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities ("asset group"). An impairment is recognized when the estimated undiscounted cash flows expected to result from the use of the asset group and its eventual disposition is less than its carrying amount. An impairment is measured as the amount by which an asset group's carrying value exceeds its estimated fair value. The Company considers a long-lived asset to be abandoned when it has ceased use of such abandoned asset and if the Company has no intent to use or repurpose the asset in the future. The Company continually evaluates the carrying value and the remaining economic useful life of long-lived assets and adjusts the carrying value and remaining useful life when appropriate.

*Leases* — Substantially all the Company's leases are classified as operating leases and are predominately related to real property for distribution centers, office space, and integration facilities, with a lease term of up to 13 years. The Company's equipment leases are primarily for automobiles, distribution center equipment and office equipment, which are not material to the consolidated financial statements.

The Company determines if an arrangement contains a lease at inception. Lease right-of-use assets ("Operating lease assets") and associated liabilities ("Operating lease liabilities") are recognized at the commencement date of the lease based on the present value of lease payments over the lease term. Certain lease agreements may include one or more options to extend or terminate a lease. Lease terms are inclusive of these options if it is reasonably certain that the Company will exercise such options.

The Company's leases generally do not provide an implicit borrowing rate, as such, the discount rate used to calculate present value is based upon an estimate of the Company's secured borrowing rate, which varies based on the lease term and the currency of the lease payments. Lease cost is recognized on a straight-line basis over the lease term and is included as a component of "Selling, general, and administrative expenses" in the consolidated statements of operations. Lease payments are primarily fixed; however, certain lease agreements contain variable payments, which are expensed as incurred and not included in the measurement of operating lease assets and liabilities.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

*Goodwill* — Goodwill represents the excess of the purchase price of acquired businesses over the estimated fair value assigned to the individual assets acquired and liabilities assumed. The Company does not amortize goodwill but instead tests goodwill for impairment at least annually in the fourth quarter. If necessary, the Company records any impairment resulting from such goodwill impairment testing as a component of operating expenses. Impairment testing is performed at the reporting unit level, which is defined as the same, or one level below, an operating segment. The Company will perform an interim impairment test between required annual tests if facts and circumstances indicate that it is more-likely-than-not that the fair value of a reporting unit that has goodwill is less than its carrying value.

In performing goodwill impairment testing, the Company may first make a qualitative assessment of whether it is more-likely-than-not that a reporting unit's fair value is less than its carrying value. If the qualitative assessment indicates it is more-likely-than-not that a reporting unit's fair value is not greater than its carrying value, the Company must perform a quantitative impairment test. The Company defines the fair value of a reporting unit as the price that would be received to sell the reporting unit as a whole in an orderly transaction between market participants as of the impairment test date. To determine the fair value of a reporting unit, the Company uses the income methodology of valuation, which includes the discounted cash flow method, and the market methodology of valuation, which considers values of comparable businesses to estimate the fair value of the Company's reporting units.

Significant management judgment is required when estimating the fair value of the Company's reporting units from a market participant perspective (including forecasting of future operating results and the discount rates used in the discounted cash flow method of valuation) and in the selection of comparable businesses and related market multiples that are used in the market method of valuation. If the estimated fair value of a reporting unit exceeds the carrying value assigned to that reporting unit, goodwill is not impaired. If the reverse is true, then the Company measures a goodwill impairment loss based on such difference.

The Company evaluates each quarter if facts and circumstances indicate that it is more-likely-than-not that the fair value of its reporting units is less than their carrying value, which would require the Company to perform an interim goodwill impairment test. Indicators the Company evaluates to determine whether an interim goodwill impairment test is necessary include, but are not limited to, (i) a sustained decrease in share price or market capitalization as of any fiscal quarter end, (ii) changes in macroeconomic or industry environments, (iii) the results of, and the amount of time passed since, the last goodwill impairment test, and (iv) the long-term expected financial performance of its reporting units.

*Foreign currency translation* — The assets and liabilities of foreign operations are translated into U.S. Dollars at the exchange rates in effect at each balance sheet date, with the related translation adjustments reported as a separate component of shareholders' equity and comprehensive income (loss). Results of operations are translated using the average exchange rates prevailing throughout the reporting period. Transactions denominated in currencies other than the functional currency of the Avnet subsidiaries that are party to the transactions are remeasured at exchange rates in effect at each balance sheet date or upon settlement of the transaction. Gains and losses from such remeasurements are recorded in the consolidated statements of operations as a component of "Other expense, net."

*Income taxes* — The Company follows the asset and liability method of accounting for income taxes. Deferred income tax assets and liabilities are recognized for the estimated future tax impact of differences between the consolidated financial statement carrying amounts of assets and liabilities and their respective tax bases. Deferred income tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred income tax assets and liabilities of a change in

**AVNET, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

tax rates is recognized within income tax expense in the period in which the new tax rate is enacted. Based upon historical and estimated levels of future taxable income and analysis of other key factors, the Company may increase or decrease a valuation allowance against its deferred tax assets, as deemed necessary, to adjust such assets to their estimated net realizable value.

The Company establishes contingent liabilities for potentially unfavorable outcomes of positions taken on certain tax matters. These liabilities are based on management's assessment of whether a tax benefit is more-likely-than-not to be sustained upon examination by the relevant tax authorities. Differences between the estimated and actual outcomes of these matters may result in future changes in estimates to such unrecognized tax benefits. Any such changes in estimates may impact the Company's effective tax rate. In accordance with the Company's accounting policies, accrued interest and penalties related to unrecognized tax benefits are recorded as a component of income tax expense.

*Revenue recognition* — Revenue is recognized at the point at which control of the underlying products are transferred to the customer, which includes determining whether products are distinct and separate performance obligations. For electronic component and related product sales, transfer of control to the customer generally occurs upon product shipment, but it may occur at a later date depending on the agreed upon sales terms (such as delivery at the customer's designated location, or when products that are consigned at customer locations are consumed). In limited instances, where products are not in stock and delivery times are critical, product is purchased from the supplier and drop-shipped to the customer. The Company typically takes control of the products when shipped by the supplier and then recognizes revenue when control of the product transfers to the customer. The Company does not have material product warranty obligations, because the assurance type product warranties provided by the component manufacturers are passed through to the Company's customers.

For contracts related to the specialized manufacture of products for customers with no alternative use and for which the Company has an enforceable right to payment, including a reasonable profit margin, the Company recognizes revenue over time as control of the products transfer through the manufacturing process, which is typically over a few weeks. The contract assets associated with such specialized manufacturing products are not material.

Revenue is measured as the amount of consideration the Company expects to receive in exchange for transferring products. The Company estimates different forms of variable consideration at the time of sale based on historical experience, current conditions, and contractual obligations. Revenue is recorded net of customer discounts and rebates. When the Company offers the right or has a history of accepting returns of product, historical experience is utilized to establish a liability for the estimate of expected returns and an asset for the right to recover the product expected to be returned. These adjustments are made in the same period as the underlying sales transactions.

The Company considers the following indicators amongst others when determining whether it is acting as a principal in the contract where revenue would be recorded on a gross basis: (i) the Company is primarily responsible for fulfilling the promise to provide the specified products or services; (ii) the Company has control of inventory and the related inventory risk before the specified products have been transferred to a customer or after transfer of control to the customer; and (iii) the Company has discretion in establishing the price for the specified products. If a transaction does not meet the Company's indicators of being a principal in the transaction, then the Company is acting as an agent in the transaction and the associated revenues are recognized on a net basis.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The Company has contracts with certain customers where the Company's performance obligation is to arrange for the products or services to be provided by another party. In these arrangements, as the Company assumes an agency relationship in the transaction, revenue is recognized in the amount of the net fee associated with serving as an agent. These arrangements primarily relate to the sale of electronic component supply chain services or to a lesser extent supplier software services.

Sales tax and other tax amounts collected from customers for remittance to governmental authorities are excluded from revenue. The Company accounts for shipping and handling of product as a fulfillment activity. The Company does not have any payment terms that exceed one year from the point it has satisfied the related performance obligations. Tariffs are included in sales as the company has enforceable rights to additional consideration to cover the cost of tariffs. Other taxes imposed by governmental authorities on the company's revenue producing activities with customers, such as sales taxes and value added taxes, are excluded from net sales.

*Vendor allowances and consideration* — Consideration received from suppliers for price protection, product rebates, sell through incentives, marketing/promotional activities, or any other programs are recorded when earned (under the terms and conditions of such supplier programs) as adjustments to product costs or selling, general and administrative expenses, depending upon the nature and contractual requirements related to the consideration received. Some of these supplier programs require management to make estimates and may extend over multiple periods.

*Comprehensive income (loss)* — Comprehensive income (loss) represents net income for the year adjusted for certain changes in shareholders' equity. Accumulated comprehensive income (loss) items impacting comprehensive income (loss) includes foreign currency translation, unrealized gains and losses on derivative instruments designated and qualifying as net investment hedges, and the impact of the Company's pension liability adjustments, net of tax.

*Stock-based compensation* — The Company measures stock-based payments at fair value and generally recognizes the associated operating expense in the consolidated statements of operations over the requisite service period. A stock-based payment is considered vested for accounting expense attribution purposes when the employee's retention of the award is no longer contingent on providing continued service. Accordingly, the Company recognizes all stock-based compensation expense for awards granted to retirement eligible employees over the period from the grant date to the date retirement eligibility is achieved, if less than the stated requisite service period. The expense attribution approach for retirement eligible employees does not affect the overall amount of compensation expense recognized but instead accelerates the recognition of such expense.

*Restructuring and exit activities* — The determination of when the Company accrues for involuntary termination benefits under restructuring plans depends on whether the termination benefits are provided under an on-going benefit arrangement or under a one-time benefit arrangement. The Company accounts for on-going benefit arrangements in accordance with Accounting Standards Codification 712 ("ASC 712") *Nonretirement Postemployment Benefits* and accounts for one-time benefit arrangements in accordance with ASC 420 *Exit or Disposal Cost Obligations*. If applicable, the Company records such costs into operating expense over the terminated employee's future service period beyond any minimum retention period. Other costs associated with restructuring or exit activities may include contract termination costs and impairments of long-lived assets, which are expensed in accordance with ASC 420 *Exit or Disposal Cost Obligations* and ASC 360 *Property, Plant and Equipment*, respectively.

AVNET, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

*Gain on legal settlements* — The Company recognizes gains on legal settlements only when such gains are realized or realizable.

*Concentration of credit risk* — Financial instruments that potentially subject the Company to a concentration of credit risk principally consist of cash and cash equivalents, marketable securities, and trade accounts receivable. The Company invests its excess cash primarily in overnight time deposits and institutional money market funds with highly rated financial institutions. To reduce credit risk, management performs ongoing credit evaluations of its customers' financial condition and, in some instances, has obtained credit insurance coverage to reduce such risk. The Company maintains reserves for potential credit losses from customers but has not historically experienced material losses related to individual customers or groups of customers in any particular end market or geographic area.

*Fair value* — The Company measures financial assets and liabilities at fair value based upon an exit price, representing the amount that would be received from the sale of an asset, or paid to transfer a liability, in an orderly transaction between market participants. ASC 820, *Fair Value Measurements*, requires inputs used in valuation techniques for measuring fair value on a recurring or non-recurring basis be assigned to a hierarchical level as follows: Level 1 are observable inputs that reflect quoted prices for identical assets or liabilities in active markets; Level 2 are observable market-based inputs or unobservable inputs that are corroborated by market data; and, Level 3 are unobservable inputs that are not corroborated by market data. During fiscal 2025, 2024, and 2023, there were no transfers of assets measured at fair value between the three levels of the fair value hierarchy. The carrying amounts of the Company's financial instruments, including cash equivalents, receivables, and accounts payable approximate their fair values at June 28, 2025, due to the short-term nature of these assets and liabilities. At June 28, 2025, and June 29, 2024, the Company had \$3.5 million and \$14.1 million, respectively, of cash equivalents that were measured at fair value based upon Level 1 criteria.

*Investments* — Equity investments in businesses or start-up companies ("ventures") are accounted for using the equity method if the investment provides the Company the ability to exercise significant influence, but not control, over the ventures. All other equity investments, which consist of investments for which the Company does not possess the ability to exercise significant influence over the ventures, are measured at fair value, using quoted market prices, or at cost minus impairment, if any, plus or minus changes resulting from observable price changes when fair value is not readily determinable. Investments in ventures are included in "Other assets" in the Company's consolidated balance sheets. Changes in fair value, including impairments for investments in ventures, if any, are recorded in "Other expense, net" in the Company's consolidated statements of operations. As of June 28, 2025, the Company's investment in a venture was \$23.5 million.

*Environmental liabilities* — The Company accrues for environmental liabilities when it is probable that obligations have been incurred, and the associated amounts can be reasonably estimated. The Company uses a third-party specialist to assist in appropriately measuring its obligations associated with environmental liabilities. Such liabilities are adjusted as new information develops or circumstances change. The Company does not discount its environmental liabilities as the timing of the anticipated cash payments is not fixed or readily determinable. The Company's estimate of its potential liability is independent of any potential recovery of insurance proceeds or indemnification arrangements and the Company's environmental liabilities have not been reduced for potential insurance recoveries.

*Recently adopted accounting pronouncements* — In November 2023, the FASB issued ASU No. 2023-07, *Segment reporting (Topic 280): Improvements to Reportable Segment Disclosures*. This ASU requires the Company to disclose

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

significant segment expenses, the title and position of the Company's Chief Operating Decision Maker (CODM), and an explanation of how the Company's reported measure of segment profit or loss is used by the CODM to assess segment performance and make resource allocation decisions. The Company adopted this guidance in the fourth quarter of fiscal 2025 on a retrospective basis. The Company's adoption of ASU No. 2023-07 did not have a material impact on the Company's consolidated financial statements but did require additional disclosures. Refer to Note 16 "Segment information."

**2. Derivative financial instruments**

Many of the Company's subsidiaries purchase and sell products in currencies other than their functional currencies, which subjects the Company to the risks associated with fluctuations in currency exchange rates. This foreign currency exposure relates primarily to international transactions where the currency collected from customers can be different from the currency used to purchase from suppliers. The Company's transactions are denominated primarily in the following currencies: U.S. Dollar, Euro, British Pound, Japanese Yen, Chinese Yuan, Taiwan Dollar, Canadian Dollar and Mexican Peso. The Company also, to a lesser extent, has foreign operations transactions in other EMEA and Asian foreign currencies.

The Company uses economic hedges to reduce this risk utilizing natural hedging (i.e., offsetting receivables and payables in the same foreign currency) and creating offsetting positions using of derivative financial instruments (primarily forward foreign currency exchange contracts typically with maturities of less than 60 days, but no longer than one year). The Company continues to have exposure to foreign currency risks to the extent they are not economically hedged. The fair value of forward foreign currency exchange contracts is based on Level 2 criteria under the ASC 820 fair value hierarchy. The Company's master netting and other similar arrangements with various financial institutions related to derivative financial instruments allow for the right of offset. The Company's policy is to present derivative financial instruments with the same counterparty as either a net asset or liability when the right of offset exists. Under the Company's economic hedging policies, gains and losses on the derivative financial instruments are classified within the same line item in the consolidated statements of operations as the remeasurement of the underlying assets or liabilities being economically hedged.

The Company has a fixed-to-fixed rate cross currency swap (the "cross-currency swap") with a notional amount of \$500.0 million, or €472.6 million, that is set to mature in March 2028. The Company designated this derivative contract as a net investment hedge of its European operations and elected the spot method for measuring hedge effectiveness. Changes in fair value of the cross-currency swap is presented in "Accumulated other comprehensive loss" in the consolidated balance sheets. Amounts related to the cross-currency swap recognized directly in net income represent net periodic interest settlements and accruals, which are recognized in "Interest and other financing expenses, net," on the consolidated statements of operations. The fair value of the cross-currency swaps is based on Level 2 criteria under the ASC 820 fair value hierarchy.

The Company uses these derivative financial instruments to manage risks associated with foreign currency exchange rates and interest rates. The Company does not enter derivative financial instruments for trading or speculative purposes and monitors the financial stability and credit standing of its counterparties.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The locations and fair values of the Company’s derivative financial instruments in the Company’s consolidated balance sheets are as follows:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>
	<b>(Thousands)</b>	
<b>Economic hedges</b>		
Prepaid and other current assets	\$ 43,750	\$ 12,116
Accrued expenses and other	\$ 27,640	\$ 16,957
<b>Cross-currency swap</b>		
Other liabilities	\$ 69,143	\$ 16,241

The locations of derivative financial instruments on the Company’s consolidated statements of operations are as follows:

		<b>Years Ended</b>		
		<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
		<b>(Thousands)</b>		
<b>Economic hedges</b>	<b>Other expense, net</b>	\$ 15,543	\$ (31,666)	\$ 40,454
<b>Cross currency swap</b>	<b>Interest and other financing expense, net</b>	\$ 4,071	\$ 4,536	\$ 1,635

**3. Shareholders’ equity**

*Accumulated comprehensive loss*

The following table includes the balances within “Accumulated other comprehensive loss”:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
	<b>(Thousands)</b>		
Accumulated translation adjustments and other	\$ (131,448)	\$ (382,801)	\$ (328,975)
Accumulated pension liability adjustments, net of income taxes	(126,245)	(103,922)	(80,406)
<b>Total accumulated other comprehensive loss</b>	<b>\$ (257,693)</b>	<b>\$ (486,723)</b>	<b>\$ (409,381)</b>

Substantially all amounts reclassified out of “Accumulated comprehensive loss, net of tax”, to operating expenses during fiscal 2025, 2024, and 2023 related to net periodic pension costs as discussed further in Note 10.

*Share repurchase program*

In August 2024, the Company’s Board of Directors approved an increase in the Company’s existing share repurchase plan. With this increase, the Company is authorized to repurchase up to an aggregate of \$600 million of common stock. During fiscal 2025, the Company repurchased 5.9 million shares under existing programs for a total cost of \$301.4 million, excluding excise tax. As of June 28, 2025, the Company had \$364.1 million remaining under its increased share repurchase authorization.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

*Common stock dividend*

During fiscal 2025, the Company paid dividends of \$1.32 per common share and \$113.3 million in total.

**4. Working capital**

***Receivables***

The Company's receivables and allowance for credit losses were as follows:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>
	<b>(Thousands)</b>	
Receivables	\$ 4,435,645	\$ 4,499,691
Allowance for Credit Losses	\$ (108,195)	\$ (108,504)

The Company had the following activity in the allowance for credit losses during fiscal 2025 and fiscal 2024:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>
	<b>(Thousands)</b>	
Balance at beginning of the period	\$ 108,504	\$ 112,843
Credit Loss Provisions	3,503	12,570
Credit Loss Recoveries	702	208
Receivables Write Offs	(10,498)	(15,852)
Foreign Currency Effect and Other	5,984	(1,265)
Balance at end of the period	<u>\$ 108,195</u>	<u>\$ 108,504</u>

***Inventories***

The Company's inventories are primarily comprised of electronic components purchased from the Company's suppliers, which are available for sale to customers in the normal course of the Company's electronic component distribution business.

Classified within inventories are electronic components held for supply chain service engagements (components) where the Company is acting as an agent on behalf of a customer or in some cases the component supplier. Given that these supply chain services involve purchasing, warehousing and providing logistics services for components as part of the services, the Company classifies the underlying components within inventories on the consolidated balance sheets. Components held for supply chain services where the Company is acting as an agent represented approximately 6% and 7% of inventories as of June 28, 2025, and June 29, 2024, respectively.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**5. Property, plant and equipment, net**

Property, plant and equipment are recorded at cost, less accumulated depreciation, and consist of the following:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>
	<b>(Thousands)</b>	
Buildings	\$ 258,653	\$ 137,460
Machinery, fixtures and equipment	305,864	275,171
Information technology hardware and software	893,572	903,812
Leasehold improvements	151,745	138,757
Depreciable property, plant and equipment, gross	1,609,834	1,455,200
Accumulated depreciation	(1,191,652)	(1,144,018)
Depreciable property, plant and equipment, net	418,182	311,182
Land	31,898	29,365
Construction in progress	217,167	227,622
Property, plant and equipment, net	<u>\$ 667,247</u>	<u>\$ 568,169</u>

Depreciation expense related to property, plant, and equipment, was \$70.2 million, \$83.6 million and \$82.6 million in fiscal 2025, 2024, and 2023, respectively. Interest expense capitalized during fiscal 2025, 2024, and 2023 was not material.

**6. Goodwill**

*Goodwill*

The following table presents the change in goodwill balances by reportable segment for fiscal year 2025.

	<b>Electronic Components</b>	<b>Farnell</b>	<b>Total</b>
	<b>(Thousands)</b>		
Carrying value at June 29, 2024 <sup>(1)</sup>	\$ 295,957	\$ 485,027	\$ 780,984

(1) Includes accumulated impairment of \$1,482,677 from prior fiscal years.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**7. Debt**

Short-term debt consists of the following (carrying balances in thousands):

	<u>June 28, 2025</u>	<u>June 29, 2024</u>	<u>June 28, 2025</u>	<u>June 29, 2024</u>
	<u>Interest Rate</u>		<u>Carrying Balance</u>	
Revolving credit facilities:				
Accounts receivable securitization program	—	6.19 %	\$ —	\$ 415,100
Other short-term debt	5.17 %	5.43 %	87,284	77,611
Short-term debt			<u>\$ 87,284</u>	<u>\$ 492,711</u>

Other short-term debt consists of various committed and uncommitted lines of credit and other forms of bank debt with financial institutions utilized primarily to support the ongoing working capital requirements of the Company, including its foreign operations.

Long-term debt consists of the following (carrying balances in thousands):

	<u>June 28, 2025</u>	<u>June 29, 2024</u>	<u>June 28, 2025</u>	<u>June 29, 2024</u>
	<u>Interest Rate</u>		<u>Carrying Balance</u>	
Revolving credit facilities:				
Accounts receivable securitization program (due December 2026)	5.18 %	—	\$ 500,000	\$ —
Credit Facility (due January 2030)	5.46 %	5.05 %	411,586	745,480
Other long-term debt	4.74 %	4.74 %	21,975	22,748
Public notes due:				
April 2026 <sup>(1)</sup>	4.63 %	4.63 %	550,000	550,000
March 2028	6.25 %	6.25 %	500,000	500,000
May 2031	3.00 %	3.00 %	300,000	300,000
June 2032	5.50 %	5.50 %	300,000	300,000
Long-term debt before discount and debt issuance costs			2,583,561	2,418,228
Discount and debt issuance costs – unamortized			(8,832)	(11,599)
Long-term debt			<u>\$ 2,574,729</u>	<u>\$ 2,406,629</u>

<sup>(1)</sup> As of June 28, 2025, the Company classified its \$550 million of 4.63% Notes due April 2026 as long-term debt based on its ability and intent to refinance these notes on a long-term basis.

In December 2024, the Company amended and extended for two years its trade accounts receivable securitization program (the “Securitization Program”) in the United States with a group of financial institutions which is due in December 2026. The Securitization Program allows the Company to transfer, on an ongoing revolving basis, an undivided interest in a designated pool of trade accounts receivable, to provide security or collateral for borrowings of up to \$500.0 million. The Securitization Program does not qualify for off balance sheet accounting treatment and any borrowings under the Securitization Program are recorded as debt in the consolidated balance sheets. Under the Securitization Program, the Company legally sells and isolates certain U.S. trade accounts receivable into a wholly owned and consolidated bankruptcy remote special purpose entity. Such receivables, which are recorded within “Receivables” in the consolidated balance sheets, totaled \$813.9 million and \$1.05 billion at June 28, 2025, and June 29, 2024, respectively. The Securitization Program contains certain covenants relating to the quality of the receivables sold.

**AVNET, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

There were \$500.0 million and \$415.1 million borrowings outstanding under the Securitization Program as of June 28, 2025, and as of June 29, 2024, respectively.

In January 2025, the Company amended and extended its five-year \$1.50 billion revolving credit facility (the “Credit Facility”) with a syndicate of banks, which expires in January 2030. It consists of revolving credit facilities and the issuance of up to \$200.0 million of letters of credit and up to \$300.0 million of loans in certain approved currencies. Under the Credit Facility, the Company may select from various interest rate options, currencies, and maturities. The Credit Facility contains certain covenants including various limitations on debt incurrence, share repurchases, dividends, investments, and capital expenditures. The Credit Facility also includes a financial covenant requiring the Company to maintain a minimum leverage ratio, which the Company was in compliance with as of June 28, 2025. At June 28, 2025, and June 29, 2024, there were \$0.9 million in letters of credit issued under the Credit Facility.

Aggregate debt maturities for the next five fiscal years and thereafter are as follows (in thousands):

2026	\$ 637,284
2027	500,000
2028	500,000
2029	—
2030	411,586
Thereafter	621,975
Subtotal	<u>2,670,845</u>
Discount and debt issuance costs – unamortized	(8,832)
Total debt	<u>\$ 2,662,013</u>

At June 28, 2025, the carrying value and fair value of the Company’s total debt was \$2.66 billion and \$2.65 billion, respectively. At June 29, 2024, the carrying value and fair value of the Company’s total debt was \$2.90 billion and \$2.85 billion, respectively. Fair value for the public notes was estimated based upon quoted market prices (Level 1) and, for other forms of debt, fair value approximates carrying value due to the market based variable nature of the interest rates on those debt facilities (Level 2).

**8. Accrued expenses and other**

Accrued expenses and other consist of the following:

	<u>June 28, 2025</u>	<u>June 29, 2024</u>
	(Thousands)	
Accrued salaries and benefits	\$ 208,723	\$ 213,641
Accrued operating costs	131,951	184,007
Accrued interest and banking costs	49,324	34,811
Accrued restructuring costs	21,612	24,660
Accrued income taxes	12,409	46,143
Accrued property, plant and equipment	16,538	20,451
Accrued other	56,597	49,342
Total accrued expenses and other	<u>\$ 497,154</u>	<u>\$ 573,055</u>

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**9. Income taxes**

The components of income tax expense (“tax provision”) are included in the table below.

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
	<b>(Thousands)</b>

Federal	3,509	(16,452)	(15,422)
State and local	2,714	86	2,606
Foreign	(105,777)	320	(20,675)
<b>Total deferred taxes</b>	<b>(99,554)</b>	<b>(16,046)</b>	<b>(33,491)</b>
<b>Income tax expense</b>	<b>\$ 10,352</b>	<b>\$ 133,564</b>	<b>\$ 212,048</b>

The tax provision is computed based upon income before income taxes from both U.S. and foreign operations. U.S. income before income taxes was \$34.0 million, \$186.6 million, and \$250.8 million in fiscal 2025, 2024, and 2023, respectively, and foreign income before income taxes was \$216.6 million, \$445.6 million, and \$732.1 million, in fiscal 2025, 2024, and 2023, respectively.

On August 16, 2022, the U.S. government enacted the Inflation Reduction Act of 2022 (the "IRA"). The IRA includes various tax provisions, including a 15% corporate minimum income tax rate ("CAMT"). The CAMT is effective for tax periods beginning with fiscal 2024. The company has determined that there is no CAMT liability in fiscal 2025, but will continue to monitor.

On July 4, 2025, the U.S. government enacted the One Big Beautiful Bill Act (the "OBBB"). The bill includes extensions of current tax provisions and makes many significant tax changes. Most of the provisions enacted by the OB BB takes effect in fiscal year 2026 while a few provisions were retroactive to fiscal 2025. The company expects no material adverse impact related to the OB BB; however, the Company will continue to monitor developments and evaluate any potential future impacts.

The Organization for Economic Co-operation and Development (OECD) has enacted a new global minimum tax framework known as Pillar Two. These rules have been agreed to by most OECD members. The OECD has since issued administrative guidance providing transition and safe harbor rules around the implementation of Pillar Two rules. The Company was subject to Pillar Two rules starting in fiscal 2025. As of June 28, 2025, Pillar Two taxes do not have a significant impact on the Company's income tax expense. The Company is continuing to monitor the relevant developments and evaluate the potential impacts.

The Company asserts that all its unremitted foreign earnings are permanently reinvested, and any unrecorded liabilities related to this assertion are not material.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Reconciliations of the U.S. federal statutory income tax rate to the effective income tax rates are as follows:

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
U.S. federal statutory rate	21.0 %	21.0 %	21.0 %
State and local income taxes	1.3	0.9	0.9
Tax on foreign income	(1.8)	(2.1)	0.5
Change in valuation allowances	8.1	0.8	0.5
Change in unrecognized tax benefit reserves	(4.8)	0.1	(0.5)
Tax audit settlements	3.6	0.3	0.3
Impact of tax attribute carryforwards	(26.2)	—	—
Impact on foreign currency translation loss	—	—	(1.2)
Other, net	2.9	0.1	0.1
Effective tax rate	<u>4.1 %</u>	<u>21.1 %</u>	<u>21.6 %</u>

Tax on foreign income represents the tax rate impact of the difference between foreign rates and the U.S. federal statutory rate applied to foreign income or loss and foreign income taxed in the U.S. at rates other than its statutory rate.

Avnet's effective tax rate on income before income taxes was 4.1% in fiscal 2025 as compared with an effective tax rate of 21.1% on fiscal 2024 income before income taxes. Included in the fiscal 2025 effective tax rate are tax benefit related to tax attribute carryforwards, tax expense related to the increase to valuation allowances against the deferred tax assets, tax audit settlements, and U.S. state taxes.

The Company applies the guidance in ASC 740 *Income Taxes*, which requires management to use its judgment to the appropriate weighting of all available evidence when assessing the need for the establishment or the release of valuation allowances. As part of this analysis, the Company examines all available evidence on a jurisdiction-by-jurisdiction basis and weighs the positive and negative evidence when determining the need for full or partial valuation allowances. The evidence considered for each jurisdiction includes, among other items: (i) the historic levels and types of income or losses over a range of time periods, which may extend beyond the most recent three fiscal years depending upon the historical volatility of income in an individual jurisdiction; (ii) expectations and risks associated with underlying estimates of future taxable income, including considering the historical trend of down-cycles in the Company's served industries; (iii) jurisdictional specific limitations on the utilization of deferred tax assets, including when such assets expire; and (iv) prudent and feasible tax planning strategies.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The significant components of deferred tax assets and liabilities, included in “Other assets” on the consolidated balance sheets, are as follows:

	<u>June 28,</u> <u>2025</u>	<u>June 29,</u> <u>2024</u>
	<u>(Thousands)</u>	
Deferred tax assets:		
Federal, state and foreign net operating loss carry-forwards	\$ 264,043	\$ 207,087
Depreciation and amortization	8,801	18,501
Inventories valuation	19,070	19,022
Operating lease liabilities	48,842	51,581
Receivables valuation	17,510	18,417
Interest deductions	77,004	51,388
Various accrued liabilities and other	189,583	103,346
	<u>624,853</u>	<u>469,342</u>
Less — valuation allowances	<u>(253,618)</u>	<u>(216,179)</u>
	<u>371,235</u>	<u>253,163</u>
Deferred tax liabilities:		
Operating lease assets	<u>(47,222)</u>	<u>(49,956)</u>
Net deferred tax assets	<u>\$ 324,013</u>	<u>\$ 203,207</u>

The change in valuation allowances in fiscal 2025 from fiscal 2024 was related to a \$22.2 million increase resulting from true ups related to prior years, and a \$15.2 million increase resulting from changing foreign exchange rates.

As of June 28, 2025, the Company had net operating and capital loss carry-forwards of approximately \$1.20 billion, of which \$13.6 million will expire during fiscal 2026 and fiscal 2027, \$209.9 million have expiration dates ranging from fiscal 2028 to fiscal 2044, and the remaining \$976.5 million have no expiration date. A significant portion of these losses are not expected to be realized in the foreseeable future and have valuation allowances against them. The carrying value of the Company’s net operating and capital loss carry-forwards depends on the Company’s ability to generate sufficient future taxable income in certain tax jurisdictions.

Estimated liabilities for unrecognized tax benefits are included in “Accrued expenses and other” and “Other liabilities” on the consolidated balance sheets. These contingent liabilities relate to various tax matters that result from uncertainties in the application of complex income tax regulations in the numerous jurisdictions in which the Company operates. As of June 28, 2025, unrecognized tax benefits were \$120.5 million. The estimated liability for unrecognized tax benefits included accrued interest expense and penalties of \$28.0 million and \$29.6 million as of the end of fiscal 2025 and 2024, respectively.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

Reconciliations of the beginning and ending liability balances for unrecognized tax benefits, excluding interest and penalties, are as follows:

	<u>June 28, 2025</u>	<u>June 29, 2024</u>
	(Thousands)	
Balance at beginning of year	\$ 100,661	\$ 102,841
Additions for tax positions taken in prior periods	1,078	86
Reductions for tax positions taken in prior periods	(7,159)	(3,242)
Additions for tax positions taken in current period	3,974	6,814
Reductions related to settlements with taxing authorities	(7,533)	(1,862)
Reductions related to the lapse of applicable statutes of limitations	(352)	(3,427)
Adjustments related to foreign currency translation	1,909	(549)
Balance at end of year	<u>\$ 92,578</u>	<u>\$ 100,661</u>

The evaluation of uncertain income tax positions requires management to estimate the ability of the Company to sustain its position with applicable tax authorities and estimate the final benefit to the Company. If the actual outcomes differ from the Company's estimates, there could be an impact on income tax expense in the period in which the position is settled, the applicable statutes of limitations expire, or new information becomes available, as the impact of these events are recognized in the period in which they occur. It is difficult to estimate the period in which the amount of a tax position will change as settlement may include administrative and legal proceedings beyond the Company's control. The effects of settling tax positions with tax authorities and statute expirations may significantly impact the estimate for unrecognized tax benefits. Within the next twelve months, the Company estimates that approximately \$13.2 million of these liabilities for unrecognized tax benefits will be settled by the expiration of the statutes of limitations or through settlements with the tax authorities. The cash payment related to the settlement of these contingencies is expected to be immaterial.

The Company conducts business globally and consequently files income tax returns in numerous jurisdictions, including those listed in the following table. It is also routinely subject to audit in these and other countries. The Company is no longer subject to audit in its major jurisdictions for periods prior to fiscal 2016. The years remaining subject to audit, by major jurisdiction, are as follows:

<b>Jurisdiction</b>	<b>Fiscal Year</b>
United States (Federal and state)	2016, 2017, 2019 - 2025
Taiwan	2020 - 2025
Hong Kong	2019 - 2025
Germany	2023 - 2025
Singapore	2020 - 2025
Belgium	2022 - 2025
United Kingdom	2022 - 2025
Canada	2018 - 2025

## 10. Pension and retirement plans

### *Pension Plan*

The Company has a noncontributory defined benefit pension plan that covers substantially all current or former U.S. Employees (the "Plan").

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The Plan meets the definition of a defined benefit plan and, as a result, the Company applies ASC 715 pension accounting to the Plan.

The following table outlines changes in benefit obligations, plan assets, and the funded status of the Plan as of the end of fiscal 2025 and 2024:

	<b>June 28, 2025</b>	<b>June 29, 2024</b>
	<b>(Thousands)</b>	
<b>Changes in benefit obligations:</b>		
Benefit obligations at beginning of year	\$ 470,843	\$ 471,401
Service cost	11,480	10,252
Interest cost	24,732	24,579
Actuarial loss	11,292	1,202
Benefits paid	(44,367)	(36,591)
Benefit obligations at end of year	<u>\$ 473,980</u>	<u>\$ 470,843</u>
<b>Changes in plan assets:</b>		
Fair value of plan assets at beginning of year	\$ 480,705	\$ 504,348
Actual return on plan assets	33,220	4,948
Benefits paid	(44,367)	(36,591)
Contributions	8,000	8,000
Fair value of plan assets at end of year	<u>\$ 477,558</u>	<u>\$ 480,705</u>
Funded status of the plan recognized as a non-current asset	<u>\$ 3,578</u>	<u>\$ 9,862</u>
<b>Amounts recognized in accumulated other comprehensive loss:</b>		
Unrecognized net actuarial losses	\$ 199,856	\$ 185,284
Unamortized prior service cost	16	20
	<u>\$ 199,872</u>	<u>\$ 185,304</u>
<b>Other changes in plan assets and benefit obligations recognized in other comprehensive income:</b>		
Net actuarial loss	\$ 17,584	\$ 36,195
Amortization of net actuarial losses	(5,222)	(222)
Amortization of prior service costs	(4)	(4)
	<u>\$ 12,358</u>	<u>\$ 35,969</u>

Included in “Accumulated other comprehensive loss” at June 28, 2025, is \$199.9 million of net actuarial losses that have not yet been recognized in net periodic pension cost, of which \$11.4 million is expected to be recognized as a component of net periodic pension cost during fiscal 2026.

Assumptions used to calculate actuarial present values of benefit obligations are as follows:

	<b>2025</b>	<b>2024</b>
Discount rate	5.5 %	5.5 %

The discount rate selected by the Company for the Plan reflects the current rate at which the underlying liability could be settled at the measurement date as of June 28, 2025. The estimated discount rate in fiscal 2025 and fiscal 2024 was based on the spot yield curve approach, which applies the individual spot rates from a highly rated bond yield curve to each future year’s estimated cash flows.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The weighted-average assumptions used to determine net benefit costs are as follows:

	<b>2025</b>	<b>2024</b>
Discount rate	5.5 %	5.4 %
Expected return on plan assets	7.5 %	7.0 %
Rate of compensation increase	3.5 %	3.5 %
Interest crediting rate	4.3 %	4.0 %

Components of net periodic pension cost for the Plan during the last three fiscal years are as follows:

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
	<b>(Thousands)</b>		
Service cost within selling, general and administrative expenses	\$ 11,480	\$ 10,252	\$ 12,015
Interest cost	24,732	24,579	26,730
Expected return on plan assets	(41,721)	(39,941)	(48,860)
Recognized net actuarial loss and other	5,226	227	2,473
Net loss recognized due to benefit obligation settlement	—	—	37,350
Total net periodic pension benefit within other expense, net	<u>(11,763)</u>	<u>(15,135)</u>	<u>17,693</u>
Net periodic pension (benefit) cost	<u>\$ (283)</u>	<u>\$ (4,883)</u>	<u>\$ 29,708</u>

The Company made \$8.0 million of contributions in fiscal 2025 and fiscal 2024 and expects to make approximately \$8.0 million of contributions in fiscal 2026.

Benefit payments are expected to be paid to Plan participants as follows for the next five fiscal years and the aggregate for the five years thereafter (in thousands):

2026	\$ 48,424
2027	37,071
2028	39,736
2029	40,566
2030	40,752
2031 through 2035	206,028

The Plan's assets are held in trust and were invested as follows as of the measurement date at the end of fiscal 2025 and 2024:

	<b>2025</b>	<b>2024</b>
Equity securities	64 %	69 %
Fixed income debt securities	32 %	29 %
Cash and cash equivalents	4 %	2 %

The general investment objectives of the Plan are to maximize returns through a diversified investment portfolio to earn annualized returns that exceed the long-term cost of funding the Plan's pension obligations while maintaining reasonable and prudent levels of risk. The expected return on the Plan's assets in fiscal 2026 is currently 8.0%, which is

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

the average rate of earnings expected on the funds invested or to be invested to provide for the benefits included in the benefit obligation based upon the targeted investment allocations. In making this assumption, the Company evaluated expectations regarding future rates of return for the investment portfolio, along with the historical and expected distribution of investments by asset class and the historical rates of return for each of those asset classes. The mix of return seeking and fixed income investments is typically diversified. The Plan's assets do not include any investments in Avnet common stock. As of June 28, 2025, the Company's target allocation for the Plan's investment portfolio is for return seeking investments to represent approximately 65% of the investment portfolio. The majority of the remaining investment portfolio is invested in fixed income investments, which typically have lower risks, but also lower returns.

The following table sets forth the fair value of the Plan's investments as of June 28, 2025:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Net Asset Value</u>	<u>Total</u>
	(Thousands)				
Cash and cash equivalents	\$ 17,880	\$ —	\$ —	\$ —	\$ 17,880
Return Seeking Investments:					
Common stocks	—	—	—	147,890	147,890
Real estate	—	—	—	74,747	74,747
High yield credit and bonds	—	—	—	84,857	84,857
Fixed Income Investments:					
U.S. government	—	—	—	113,401	113,401
Corporate	—	—	—	38,783	38,783
<b>Total</b>	<b>\$ 17,880</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 459,678</b>	<b>\$ 477,558</b>

Certain investments included in the table above are measured at fair value using the net asset value per share (or its equivalent) practical expedient and are not included in the three levels of the fair value hierarchy.

The following table sets forth the fair value of the Plan's investments as of June 29, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Net Asset Value</u>	<u>Total</u>
	(Thousands)				
Cash and cash equivalents	\$ 8,586	\$ —	\$ —	\$ —	\$ 8,586
Return Seeking Investments:					
Common stocks	—	—	—	151,936	151,936
Real estate	—	—	—	95,974	95,974
High yield credit and bonds	—	—	—	85,064	85,064
Fixed Income Investments:					
U.S. government	—	—	—	102,542	102,542
Corporate	—	—	—	36,603	36,603
<b>Total</b>	<b>\$ 8,586</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ 472,119</b>	<b>\$ 480,705</b>

Each of these investments may be redeemed without restrictions in the normal course of business and there were no material unfunded commitments as of June 28, 2025.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

**11. Leases**

The components of lease cost related to the Company’s operating leases were as follows (in thousands):

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
Operating lease cost	\$ 64,349	\$ 63,514	\$ 67,478
Variable lease cost	33,036	29,560	21,422
<b>Total lease cost</b>	<b>\$ 97,385</b>	<b>\$ 93,074</b>	<b>\$ 88,900</b>

Future minimum operating lease payments as of June 28, 2025, are as follows (in thousands):

<b>Fiscal Year</b>	
2026	\$ 60,682
2027	41,206
2028	29,736
2029	21,986
2030	14,800
Thereafter	212,104
Total future operating lease payments	380,514
Total imputed interest on operating lease liabilities	(164,818)
<b>Total operating lease liabilities</b>	<b>\$ 215,696</b>

Other information pertaining to operating leases consists of the following:

	<b>Years Ended</b>		
	<b>June 28, 2025</b>	<b>June 29, 2024</b>	<b>July 1, 2023</b>
<b>Operating Lease Term and Discount Rate</b>			
Weighted-average remaining lease term in years	14.0	7.5	8.2
Weighted-average discount rate	4.1 %	3.8 %	3.8 %
<b>Supplemental Cash Flow Information (in thousands)</b>			
Cash paid for operating lease liabilities	\$ 58,474	\$ 57,572	\$ 58,111
Operating lease assets obtained from new operating lease liabilities	\$ 92,647	\$ 47,668	\$ 48,038

**12. Stock-based compensation**

The Company measures all stock-based payments at fair value and recognizes related expense within selling, general and administrative expenses in the consolidated statements of operations over the requisite service period (generally the vesting period). During fiscal 2025, 2024, and 2023, the Company recorded stock-based compensation expense of \$36.4 million, \$33.5 million, and \$38.8 million, respectively, for all forms of stock-based compensation awards.

**AVNET, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

***Stock plan***

At June 28, 2025, the Company had 4.7 million shares of common stock reserved for stock-based payments, which consisted of 0.8 million shares for unvested or unexercised stock options, 2.5 million shares available for stock-based awards under plans approved by shareholders, and 1.3 million shares for restricted stock units and performance share units granted but not yet vested.

***Stock options***

There were no stock options granted in fiscal 2025 and 2024, and the stock-based compensation expense and unamortized stock-based compensation associated with stock options were not material.

***Restricted stock units***

Delivery of restricted stock units, and the associated compensation expense, is recognized over the vesting period and is generally subject to the employee's continued service to the Company, except for employees who are retirement eligible under the terms of the restricted stock units. As of June 28, 2025, 1.0 million shares previously awarded have not yet vested. Stock-based compensation expense associated with restricted stock units was \$34.3 million, \$32.6 million, and \$30.5 million for fiscal years 2025, 2024, and 2023, respectively.

The following is a summary of the changes in non-vested restricted stock units during fiscal 2025:

	<u>Shares</u>	<u>Weighted Average Grant-Date Fair Value</u>
Non-vested restricted stock units at June 29, 2024	1,084,587	\$ 44.02
Granted	704,020	52.06
Vested	(700,260)	44.79
Forfeited	(44,591)	47.58
Non-vested restricted stock units at June 28, 2025	<u>1,043,756</u>	<u>\$ 48.78</u>

As of June 28, 2025, there was \$21.4 million of total unrecognized compensation expense related to non-vested restricted stock units, which is expected to be recognized over a weighted-average period of 2.1 years. The total fair value of restricted stock units vested during fiscal 2025, 2024, and 2023, was \$31.4 million, \$31.0 million, and \$28.6 million, respectively.

***Performance share units***

The Company granted 0.2 million performance share units during fiscal 2025, 2024, and 2023. During fiscal 2025, 2024, and 2023, the stock-based compensation expense associated with the performance share units was not material.

**13. Commitments and contingencies**

From time to time, the Company may become a party to, or be otherwise involved in, various lawsuits, claims, investigations and other legal proceedings arising in the ordinary course of conducting its business. While litigation is

**AVNET, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

subject to inherent uncertainties, management does not anticipate that any such matters will have a material adverse effect on the Company's financial condition, liquidity, or results of operations.

The Company is also currently subject to various pending and potential legal matters and investigations relating to compliance with governmental laws and regulations. For certain of these matters, it is not possible to determine the ultimate outcome, and the Company cannot reasonably estimate the maximum potential exposure or the range of possible loss, particularly regarding matters in early stages. The Company currently believes that the resolution of such matters will not have a material adverse effect on the Company's financial position or liquidity but could possibly be material to its results of operations in any single reporting period.

As of June 28, 2025, and June 29, 2024, the Company had aggregate undiscounted estimated liabilities of \$9.6 million and \$17.2 million, respectively, classified within accrued expenses and other for other compliance-related matters that were reasonably estimable as of such dates.

*Contingent Liability for Mexico Consumption Tax Audit*

The Company's facilities in Mexico operate under the Mexican Maquiladora (IMMEX) program. This program provides for reduced tariffs and eased import regulations. In September 2023, the Mexican customs and tax authority (Servicio de Administracion Tributaria (SAT)) opened an audit related to the Company's participation in the IMMEX program for the period January 11, 2019, to January 11, 2020. The SAT initially asserted that the Company's subsidiary, Avnet de Mexico S.A. de C.V., has underpaid value-added taxes (VAT) and is also liable for inflationary and interest adjustments, fines, and penalties. The Company disputes the SAT's assertion and is working to resolve the issue through various administrative, legal, and diplomatic channels. The SAT has not issued a final assessment. The Company is not able to predict the outcome of this matter with certainty, including the timing of any resolution and the amount of any assessment. However, based on information available as of the balance sheet date, it is probable that Avnet de Mexico will ultimately incur an assessment. Consequently, the Company recorded a net loss contingency of \$43.4 million within "restructuring, integration and other expenses" in the Company's consolidated statement of operations for fiscal year 2025. That amount is the Company's best estimate of the losses from this matter and is subject to change based on the results of the SAT audit, the Company's ability to recover VAT, and any administrative processes or legal appeals.

*Gain on Legal Settlements and Other*

During fiscal 2024, the Company recorded gains on legal settlements and other of \$86.5 million in connection with the settlements of claims filed against certain manufacturers of capacitors. The Company received \$90.7 million in cash, of which \$86.5 million related to the gain recognized in fiscal 2024. Gains from legal settlements were classified as operating cash flows in the Company's Consolidated Statements of Cash Flows.

**AVNET, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The Company includes bank overdrafts as part of accounts payable on its consolidated balance sheets and reflects changes in such balances as part of cash flows from operating activities in its consolidated statements of cash flows.

**16. Segment information**

Avnet has two primary operating groups — Electronic Components (“EC”) and Farnell (“Farnell”). Both operating groups have operations in each of the three major economic regions of the world: (i) the Americas, (ii) EMEA, and (iii) Asia. Each operating group has its own management team, who manage various functions within each operating group. Each operating group also has distinct financial reporting to the executive level, which informs operating decisions, strategic planning, and resource allocation for the Company as a whole.

Avnet’s EC operating group primarily supports high and medium-volume customers. It markets, sells, and distributes electronic components from many of the world’s leading electronic component manufacturers, including semiconductors, IP&E components (interconnect, passive and electromechanical components), and other integrated and embedded components. EC serves a variety of markets ranging from industrial to automotive to defense and aerospace. It offers an array of customer support options throughout the entire product lifecycle, including both turnkey and customized design, supply chain, programming, logistics, and post-sales services. Within the EC operating group for 2025, net sales of approximately \$17.00 billion consist of semiconductor products, approximately \$3.30 billion consist of interconnect, passive, and electromechanical components, and approximately \$371.8 million consist of computers, and approximately \$85.6 million consists of other products and services.

Avnet’s Farnell operating group primarily supports lower-volume customers that need electronic components quickly to develop, prototype, and test their products. It distributes a comprehensive portfolio of kits, tools, electronic components, industrial automation components, and test and measurement products to both engineers and entrepreneurs, primarily through an e-commerce channel. Farnell also distributes new product introductions for its suppliers across their various product categories. Within the Farnell operating group for 2025, net sales of approximately \$206.9 million consists of semiconductor products, approximately \$680.3 million consists of interconnect, passive, and electromechanical components, approximately \$157.0 million consists of single-board computers, and approximately \$401.6 million consists of other products and services, including test and measurement and maintenance, repair, and operations products.

The Company has identified its Chief Executive Officer (“CEO”) as the chief operating decision maker (“CODM”). The CODM evaluates the performance of both reportable segments based on operating income. Sales, net gross profit, and operating expenses are also monitored closely. This information is used to monitor operating margins, measure segment profitability, allocate resources, and make budgeting and forecasting decisions about the reportable segments. The CODM also uses these measures to monitor trends in year over year performance comparisons, sequential quarter performance comparisons, and to compare actual results to forecasts.

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None.

**Item 9A. Controls and Procedures**

**Disclosure Controls and Procedures**

The Company's management, including its Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the reporting period covered by this report on Form 10-K. Based on such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report on Form 10-K, the Company's disclosure controls and procedures are effective such that material information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported, within the time periods specified by the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including the Company's principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

**Management's Report on Internal Control Over Financial Reporting**

The Company's management, including its Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15(d)-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes, in accordance with generally accepted accounting principles in the United States of America. Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Management conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of June 28, 2025. In making this assessment, management used the 2013 framework established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and concluded that the Company maintained effective internal control over financial reporting as of June 28, 2025.

The Company's independent registered public accounting firm, KPMG LLP, has audited the effectiveness of the Company's internal controls over financial reporting as of June 28, 2025, as stated in its audit report which is included herein.

**Changes in Internal Control Over Financial Reporting**

During the fourth quarter of fiscal 2025, there were no changes to the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15(d)-15(f) of the Exchange Act) that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Item 9B. Other Information**

During the three months ended June 28, 2025, no director or officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

**Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections**

None.

### PART III

**Item 10. *Directors, Executive Officers and Corporate Governance***

The Company has adopted an Insider Trading Policy governing the purchase, sale, and other dispositions of the Company's securities by its directors, officers, employees, and designated contractors, as well as by the Company itself. The Company believes that the policy is reasonably designed to promote compliance with applicable law and exchange listing standards regarding insider trading. A copy of the policy is filed as Exhibit 19.1 to the Annual Report.

Other information called for by Item 10 is incorporated in this Report by reference to the Company's definitive proxy statement relating to the Annual Meeting of Stockholders scheduled to be held on November 21, 2025.

**Item 11. *Executive Compensation***

The information called for by Item 11 is incorporated in this Report by reference to the Company's definitive proxy statement relating to the Annual Meeting of Stockholders scheduled to be held on November 21, 2025.

**Item 12. *Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters***

The information called for by Item 12 is incorporated in this Report by reference to the Company's definitive proxy statement relating to the Annual Meeting of Stockholders scheduled to be held on November 21, 2025.

**Item 13. *Certain Relationships and Related Transactions, and Director Independence***

The information called for by Item 13 is incorporated in this Report by reference to the Company's definitive proxy statement relating to the Annual Meeting of Shareholders scheduled to be held on November 21, 2025.

**Item 14. *Principal Accounting Fees and Services***

The information called for by Item 14 is incorporated in this Report by reference to the Company's definitive proxy statement relating to the Annual Meeting of Stockholders scheduled to be held on November 21, 2025.

### PART IV

**Item 15. *Exhibits and Financial Statement Schedules***

The financial statements and supplementary data are listed in the index included under Item 8 of this Report.

The exhibits listed below are filed as part of this report.

## CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Philip R. Gallagher, certify that:

1. I have reviewed this annual report on Form 10-K of Avnet, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
  - a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
